Corporate Finance Sunil Mahajan, 2020-12-03 The book introduces corporate finance to first year students in business schools Basic subjects such as marketing human resources and finance are all fundamental to the learning of a business manager A book on these subjects must emphasise learning that is conceptual in nature and at the same time application oriented This book attempts to achieve this in a manner that is comprehensive and shorn of complexity It examines the practice of finance without diluting theory and conceptual knowledge Corporate finance is necessarily quantitative in nature and the book duly places emphasis on that aspect It ensures the primacy of ideas and concepts utilising numbers as supportive elements

A Practical Guide to Corporate Finance Christophe Thibierge, Andrew Beresford, 2016-04-25 This textbook offers an approachable guide to all key concepts within corporate finance Emphasizing the use of common sense rather than number crunching models it provides a compact easy to read experience for any reader practitioners and students alike whatever their background A Practical Guide to Corporate

Finance begins with the basics of how to read financial statements and how to estimate future cash flows. It also includes a guide to subjects such as capital budgeting decisions, the cost of financing for businesses, cash and working capital management, the process of business valuation, and how stock markets work. This textbook breaks the financial ice by offering real practical advice, helping the reader to avoid common pitfalls and translate the financial jargon that can cause confusion for those without a financial or banking background. Every chapter features real life applications and is punctuated with mini case studies in the form of a Slice of Life and numerous dialogues that help shape the comprehension of the reader.

Corporate Financial Strategy Ruth Bender, Keith Ward, 2012-05-04

Corporate Financial Strategy is a practical guide to understanding the elements of financial strategy and how directors and advisors can add value by tailoring financial strategy to complement corporate strategy. The book sets out appropriate financial strategies over the key milestones in a company's life. It discusses the practicalities behind transactions such as Raising venture capital, Flotation on a stock exchange, Making acquisitions, Management buyouts, Financial restructuring. In explaining financing structures, the book sets out the basic building blocks of any financial instrument to enable the reader to appreciate innovations in the field. It also illustrates how and why different types of security might be used. The second edition of this very popular textbook brings to bear the considerable commercial and academic experience of its co-authors. Throughout the book offers a range of up to date case studies, abundant diagrams and figures, and frequent Working Insight sections to provide practical illumination of the theory. This book will enable you to understand the potential value added by the best financial strategy while fully demonstrating the working role of financial strategy within an overall corporate strategy. An excellent practical guide for senior financial managers, strategic decision makers, and qualified accountants, the text is also invaluable as a clear, sighted and thorough companion for students and senior executives on finance courses including MBA, MSc, and DMS.
