The Roman Noir in Post-war French Culture Claire Gorrara, 2003 *The Roman Noir in Post War French Culture* offers a lively introduction to the post war French roman noir from a cultural studies perspective A populist and widely disseminated genre the French roman noir has suffered from a reputation as a minor genre with its roots in American popular culture In this study Claire Gorrara challenges such preconceptions and examines how selected writers have appropriated the roman noir as a critical response to formative concerns and debates in post war French society Starting with the first truly French roman noir L o Malet s 120 rue de la gare 1943 and concluding with Maud Tabachnik s feminist thriller Un t pourri 1994 Gorrara analyses both texts and film in relation to their specific historical and cultural context From the heritage of the Second World War and France s wars of decolonisation to the rise of consumer culture and questions of gender and sexual equality the roman noir operates in dialogue with its times mediating social change and transformation with stories of crime transgression and marginality All the novelists studied were published initially in popular collections such as the S rie noire but they have been chosen for the innovation of their work and the exciting ways in which they resist tired conventions and offer new ways of representing social reality One of the first English language studies of this popular genre *The Roman Noir in Post War French Culture* offers much more than close readings of these fascinating texts it demonstrates the important contribution of the roman noir to the cultural histories of post war France

Literary Culture in a World Transformed William Paulson, 2018-08-06 Literary studies are in danger of being left behind in the twenty first century Print culture risks becoming a thing of the past in the multimedia age meanwhile human life and society are undergoing rapid changes as a result of new technologies the intensification of global capitalism and the effects of human actions on the environment In this transformed world William Paulson argues for a radical renewal of literary studies Modern literary culture has defined itself in opposition to science politics and commerce as a protected sphere of democratic and free inquiry but today that autonomy may lead to isolation from the real dynamics of cultural and global change Paulson clearly and convincingly demonstrates the need for literary studies to embrace both the unfashionable literary past and the technologically saturated future and to train

not a countersociety of cultural critics but citizens of the world who can communicate the irreducible strangeness and multiplicity of literature to a society on hyperdrive His series of concrete proposals ranging from a closer connection between literature and everyday language to the restructuring of undergraduate and graduate education will immeasurably enrich current discussions of the humanities role in the life of the world

At the Beach Jean-Didier Urbain, 2003 Around the world when people think of vacation it's the beach they want even when long distances must be traversed the seashore is the place to escape the rigors of modern life How did this come to be and what does our ongoing love affair with the beach mean How do shore vacations differ from traditional tourism and what does this tell us about our fears and dreams In *At the Beach* Jean Didier Urbain offers witty and insightful answers to these questions Urbain traces the transformation of the beach from a place of mythological threats and a demanding workplace fraught with danger to a destination for medical treatment and the pursuit of pleasure He looks to the emergence of the modern vacation in the nineteenth century examines representations of beachgoing in literature and the arts and shows the transgressive side of beach culture from nudism to hedonism to various scandals about costume behavior and sexuality that make the beach the site of social spectacle as well as leisure Urbain's ultimate focus is the paradoxical enterprise of the residential seaside vacationer who travels in order to stay in one place and who leaves the everyday world behind to reconstruct an idealized version of it at the shore He argues that unlike tourists who move from place to place beach vacationers are not seeking to explore nature to discover other cultures or even to get away from it all rather they are attempting to re create their own identities through a simplified community they can no longer find elsewhere Blending history with social observation Urbain presents an original incisive and entertaining account of this enduring ritual of escape and recreation

Napoleon and de

Gaule Patrice Gueniffey, 2020-05-12 An Australian Book Review Best Book of the Year One of France's most famous historians compares two exemplars of political and military leadership to make the unfashionable case that individuals for better and worse matter in history. Historians have taught us that the past is not just a tale of heroes and wars. The anonymous millions matter and are active agents of change. But in democratizing history we have lost track of the outsized role that individual will and charisma can play in shaping the world, especially in moments of extreme tumult. Patrice Gueniffey provides a compelling reminder in this powerful dual biography of two transformative leaders: Napoleon Bonaparte and Charles de Gaulle. Both became national figures at times of crisis and war. They were hailed as saviors and were eager to embrace the label. They were also animated by quests for personal and national greatness by the desire to raise France above itself and lead it on a mission to enlighten the world. Both united an embattled nation, returned it to dignity, and left a permanent political legacy. In Napoleon's case, a form of administration and a body of civil law; in de Gaulle's case, new political institutions. Gueniffey compares Napoleon's and de Gaulle's journeys to power, their methods, their ideas, and writings, notably about war, and their postmortem reputations. He also contrasts their weaknesses: Napoleon's limitless ambitions and appetite for war, and de Gaulle's capacity for cruelty, manifested most clearly in Algeria. They were men of genuine talent and achievement, with flaws almost as pronounced as their strengths. As many nations, not least France, struggle to find their soul in a rapidly changing world, Gueniffey shows us what a difference an extraordinary leader can make.
