Undergraduate students of the sociology of education education and society and education studies **If You Don'T Mind My Saying So** John Calvert, 2016-08-01 This is an age in which even the most honest and intelligent debate on social topics is risky Free inquiry which was once the pride of higher education has almost disappeared as our politicized campuses have become one party systems tolerating little dissent from the established orthodoxy The ideology of multiculturalism in particular has led to demands for conformity in education and in society in general and even threatens the liberties of Western civilization Debate on fundamental issues has become rare and nowhere is it rarer than in higher education which at one time exulted in debate and in defending unpopular views This happens because almost all institutions of higher education are today dominated by a narrow portion of the political spectrum fashion and rigid consensus not debate determine campus policy The essays in this book deal with topics that in some quarters are in questionable taste such as why American students rank at the bottom in international tests Celebrating diversity may be a bad idea Artificial intelligence may eliminate all human jobs Demographic change threatens Americas 2 party system Marshmallows may make kids smarter We need the common core Etc etc Whatever the political stance of the reader it is my hope that they will find these essays thought provoking *Tested* Linda Perlstein, 2025-03-14 The pressure is on at schools across America In recent years reforms such as No Child Left Behind have created a new vision of education that emphasizes provable results uniformity and greater attention for floundering students Schools are expected to behave more like businesses and judged almost solely on the bottom line test scores To see if this world is producing better students Linda Perlstein immersed herself in a suburban Maryland elementary school The resulting portrait detailed human and truly thought provoking is marked by the same narrative gifts and expertise that made *Not Much Just Chillin* so illuminating The school once deemed a failure is now held up as an example of reform done right Perlstein explores the rewards and costs of that transformation through the experiences of the people who lived it Nine year olds meditate to activate their brains before exams and kindergartners write paragraphs Teachers attempt to address diverse needs at the same time they are expected to follow daily scripts and feel compelled to focus on topics that will be tested at the expense of those that won t The principal attempts to keep it all together in the face of immense challenges Perlstein provides the first detailed view of how new education policies are modified by human realities *Tested* will be talked about thought about written about and will almost certainly play an important role in the national debate as the federal education law come up for renewal **Nonfiction Comprehension Test Practice: Level 5** , 2006-11-01 Based on articles from *TIME for Kids* magazine activities provide reading comprehension practice in standardized test format **Nonfiction Comprehension Test Practice Level 5** Jennifer Overend Prior, 2006-11-01 Contains 20 nonfiction articles and comprehension exercises in standardized test format designed to help students become
