Cannibals And Philosophers Bodies Of Enlightenment:

Cannibals & Philosophers Daniel Cottom,2001 Examining paintings digestion machines spa waters and kissing as cultural forms and interweaving these examinations with new readings of literary and philosophical texts Cottom locates a new focus on the inner working of the body a visceral turn in Enlightenment thinking The most radical image of this visceral turn appeared in the figure of the cannibal a figure who in popular imagination bore a striking resemblance to the image of the philosopher

The Aboriginal Male in the Enlightenment World Shino Konishi,2015-10-06 This is the first historical study of indigenous Australian masculinity Using the reactions of eighteenth century western explorers to Aboriginal men Konishi argues that these encounters were not as negative as has been thought

Our Cannibals, Ourselves Priscilla L. Walton,2010-10-01 Why does Western culture remain fascinated with and saturated by cannibalism Moving from the idea of the dangerous Other Priscilla L Walton s *Our Cannibals Ourselves* shows us how modern day cannibalism has been recaptured as in the vampire story resurrected into the human blood stream and mutated into the theory of germs through AIDS Ebola and the like At the same time it has expanded to encompass the workings of entire economic systems such as in consumer cannibalism *Our Cannibals Ourselves* is an interdisciplinary study of cannibalism in contemporary culture It demonstrates how what we take for today s ordinary culture is imaginatively and historically rooted in very powerful processes of the encounter between our own and different often threatening cultures from around the world Walton shows that the taboo on cannibalism is heavily reinforced only partly out of fear of cannibals themselves instead cannibalism is evoked in order to use fear for other purposes including the sale of fear entertainment Ranging from literature to popular journalism film television and discourses on disease *Our Cannibals Ourselves* provides an all encompassing insightful meditation on what happens to popular culture when it goes global

Thinking the Limits of the Body Jeffrey Jerome Cohen,Gail Weiss,2012-02-01 This collection maps the very best efforts to think the body at its limits Because the body encompasses communities social and political bodies territories geographical bodies and historical texts and ideas a body of literature a body of work Cohen and Weiss seek trans disciplinary points of resonance and divergence to examine how disciplinary metaphors materialize specific bodies and where these bodies break down and or refuse prescribed paths Whereas postmodern theorizations of the body often neglect its corporeality in favor of its cultural construction this book demonstrates the inseparability of textuality materiality and history in any discussion of the body

The Enlightenment Paul Hyland,Olga Gomez,Francesca Greensides,2003 This outstanding sourcebook brings together the work of major Enlightenment thinkers to illustrate the full importance and achievements of this great period of change

Gut Feeling and Digestive Health in Nineteenth-Century Literature, History and Culture Manon Mathias,Alison M. Moore,2018-11-17 This book considers the historical and cultural origins of the gut brain relationship now evidenced in numerous scientific research fields Bringing together eleven scholars with wide interdisciplinary expertise the volume

examines literal and metaphorical digestion in different spheres of nineteenth century life Digestive health is examined in three sections in relation to science politics and literature during the period focusing on Northern America Europe and Australia Using diverse methodologies the essays demonstrate that the long nineteenth century was an important moment in the Western understanding and perception of the gastroenterological system and its relation to the mind in the sense of cognition mental wellbeing and the emotions This collection explores how medical breakthroughs are often historically preceded by intuitive models imagined throughout a range of cultural productions The Travels of Hildebrand Bowman Anonymous,2016-10-30 The Travels of Hildebrand Bowman 1778 tells the story of a fictional midshipman abandoned in Queen Charlotte Sound New Zealand after a battle with Maori that claims the lives of ten of his shipmates Inspired by an actual event on Captain Cook s second voyage Bowman s adventures take him to increasingly sophisticated cultures hunter gatherer pastoral nomadic agricultural and commercial that dramatize stadial history in a Pacific setting The work provocatively weaves together popular fascination with Cook s voyages sensational conceptions of the newly charted Pacific contemporary ideas on human development and culture topical satire on London life and a fanciful castaway story As an introduction to the cultural connections linking Pacific studies the Scottish Enlightenment and eighteenth century English society and politics The Travels of Hildebrand Bowman is unique in literary history and unsurpassed as a teaching text Of equal importance it marks the birth of a national literature It is the first New Zealand novel Historical appendices provide an exceptionally broad range of materials on the Grass Cove massacre the eighteenth century stadial theory of historical development cannibalism and contemporary depictions of the South Pacific and its indigenous peoples **Domesticating Empire** Karen Stolley,2021-04-30 Why has the work of writers in eighteenth century Latin America been forgotten During the eighteenth century enlightened thinkers in Spanish territories in the Americas engaged in lively exchanges with their counterparts in Europe and Anglo America about a wide range of topics of mutual interest responding in the context of increasing racial and economic diversification Yet despite recent efforts to broaden our understanding of the global Enlightenment the Ibero American eighteenth century has often been overlooked Through the work of five authors Jose de Oviedo y Banos Juan Ignacio Molina Felix de Azara Catalina de Jesus Herrera and Jose Martin Felix de Arrate Domesticating Empire explores the Ibero American Enlightenment as a project that reflects both key Enlightenment concerns and the particular preoccupations of Bourbon Spain and its territories in the Americas At a crucial moment in Spain s imperial trajectory these authors domesticate topics central to empire conquest Indians nature God and gold by making them familiar and utilitarian As a result their works later proved resistant to overarching schemes of Latin American literary history and have been largely forgotten Nevertheless eighteenth century Ibero American writing complicates narratives about both the Enlightenment and Latin American cultural identity *Writing the Hamat'sa* Aaron Glass,2021-07-15 Long known as the Cannibal Dance the Hamat sa is among the most important hereditary prerogatives of the Kwakwaka'wakw of British

Columbia In the late nineteenth century as anthropologists arrived to document the practice colonial agents were pursuing its eradication and Kwakwaka'wakw were adapting it to endure In the process the dance with dramatic choreography magnificent bird masks and an aura of cannibalism entered a vast library of ethnographic texts Writing the Hamatsa offers a critical survey of attempts to record describe and interpret the dance over four centuries Going beyond postcolonial critiques of representation that often ignore Indigenous agency in the ethnographic encounter Writing the Hamatsa focuses on forms of textual mediation and Indigenous response that helped transform the ceremony from a set of specific performances into a generalized cultural icon This meticulous work illuminates how Indigenous people contribute to contest and repurpose texts in the process of fashioning modern identities under settler colonialism [Transoceanic America](#) Michelle

Burnham, 2019-05-23 Transoceanic America offers a new approach to American literature by emphasizing the material and conceptual interconnectedness of the Atlantic and Pacific worlds These oceans were tied together economically textually and politically through such genres as maritime travel writing mathematical and navigational schoolbooks and the relatively new genre of the novel Especially during the age of revolutions in the late eighteenth and early nineteenth centuries long distance transoceanic travel required calculating and managing risk in the interest of profit The result was the emergence of a newly suspenseful form of narrative that came to characterize capitalist investment political revolution and novelistic plot The calculus of risk that drove this expectationist narrative also concealed violence against vulnerable bodies on ships and shorelines around the world A transoceanic American literary and cultural history requires new non linear narratives to tell the story of this global context and to recognize its often forgotten textual archive
