Citizen Worker Citizen Worker

Laura Levine Frader

Citizen Worker Citizen Worker:

Citizen Worker David Montgomery, 1993 Discusses the relationship between workers and the government by focusing not on the legal regulation of unions and strikes but on popular struggles for citizenship rights EL CIUDADANO TRABAJADOR David Montgomery, Stella Mastrangelo e tr, 1997 The Making of the Citizen-Worker Federico Tomasello, 2023-07-31 Over the course of the 19th century European societies started thinking of themselves as civilisations of work In the wake of the political and industrial revolutions labour as a human activity and condition gradually came to embody a general principle of order progress and governance How did work become so central to our systems of citizenship and social recognition The book addresses this question by considering the French context in the long transition between the 1789 and 1848 revolutions and focusing on a specific fragment of history in the early 1830s marked by a pandemic crisis and the first consequences of industrialisation It combines the analysis of both political institutions and social movements to retrace the rise of a labour based social contract revolving around the citizen worker as the quintessential subject of rights The first part of the book highlights the role played by the genesis of the modern social sciences and analyses it as a political process that established work as an object of governance and scientific investigation thus fostering pioneering measures of welfare centred on work conditions The second part focuses on the emergence of the concept of working class and the modern labour movement which structured the world of work as a collective political subject Chapter 2 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license **Economy, Work, and Education** Catherine Casey, 2016-07-27 *Economy Work and Education Critical Connections* addresses effects of neoliberal capitalism in particular regard to work and education It reveals limits and paradoxes in macroeconomic policy imperatives toward knowledge based economies and learning societies and elaborates ensuing critical concerns and dilemmas It concludes with an exploration of innovative conceptions of social citizenship which may stimulate sources of a revitalization of work and education beyond singular economic imperatives **Citizen, Mother, Worker** Emilie Stoltzfus, 2003 During World War II American women entered the workforce in unprecedented numbers and many of them relied on federally funded child care programs At the end of the war working mothers vigorously protested the termination of child care subsidies In **The Digital Citizenship in the European Union framework. Political, Economic, Sociological, and Legal Issues** Raffaele Torino, 2024-12-31 Fra i principali risultati del Modulo Jean Monnet La Cittadinanza Digitale per l'Unione Europea coordinato da Raffaele Torino il volume analizza il tema della cittadinanza digitale nel contesto del processo di integrazione europea non solo da una prospettiva giuridica ma anche nei suoi aspetti politici economici e sociologici La scelta metodologica di ricercare e insegnare la Cittadinanza Digitale attraverso una pluralità di approcci epistemologici si rivela la naturale conseguenza dell'attitudine degli studenti di Scienze Politiche a costruire il proprio sapere in maniera multidisciplinare Il volume esplora

molteplici sfaccettature della cittadinanza digitale e l'impatto della digitalizzazione sulle relazioni di cittadinanza intese in senso ampio in una realtà in continua evoluzione sebbene ormai non più del tutto nuova di relazioni giuridiche economiche e sociali in cui l'individuo europeo diventa cittadina e cittadino di un mondo digitale DOI 10.13134/9791259774033

Breadwinners and Citizens Laura Levine Frader, 2008-03-28 Laura Levine Frader advances the argument that the male breadwinner ideal was stronger in France in the interwar years than scholars have typically recognized **Migrants at Work** Cathryn Costello, Mark Freedland, 2014-10-30 There is a highly significant and under considered intersection and interaction between migration law and labour law Labour lawyers have tended to regard migration law as generally speaking outside their purview and migration lawyers have somewhat similarly tended to neglect labour law The culmination of a collaborative project on Migrants at Work funded by the John Fell Fund the Society of Legal Scholars and the Research Centre at St John's College Oxford this volume brings together distinguished legal and migration scholars to examine the impact of migration law on labour rights and how the regulation of migration increasingly impacts upon employment and labour relations Examining and clarifying the interactions between migration migration law and labour law contributors to the volume identify the many ways that migration law as currently designed divides the objectives of labour law privileging concerns about the labour supply and demand over worker protective concerns In addition migration law creates particular forms of status which affect employment relations thereby dividing the subjects of labour law Chapters cover the labour laws of the UK Australia Ireland Israel Italy Germany Sweden and the US References are also made to discrete practices in Brazil France Greece New Zealand Mexico Poland and South Africa These countries all host migrants and have developed systems of migration law reflecting very different trajectories Some are traditional countries of immigration and settlement migration while others have traditionally been countries of emigration but now import many workers There are nonetheless common features in their immigration law which have a profound impact on labour law for instance in their shared contemporary shift to using temporary labour migration programmes Further chapters examine EU and international law on migration labour rights human rights and human trafficking and smuggling developing cross jurisdictional and multi level perspectives Written by leading scholars of labour law migration law and migration studies this book provides a diverse and multidisciplinary approach to this field of legal interaction of interest to academics policymakers legal practitioners trade unions and migrants groups alike **Beyond Citizenship?** S. Roseneil, 2013-03-28 Beyond Citizenship Feminism and the Transformation of Belonging pushes debates about citizenship and feminist politics in new directions challenging us to think beyond citizenship and to engage in feminist re theorizations of the experience and politics of belonging Migrant Domestic Workers and Family Life Maria Kontos, Glenda Tibe Bonifacio, 2016-02-23 This timely and innovative book delivers a comprehensive analysis of the non recognition of the right to a family life of migrant live in domestic and care workers in Argentina Canada Germany Italy Lebanon Norway the Philippines Slovenia South Korea Spain the United Arab Emirates the United States of
