Citizenship In Britain Citizenship In Britain:

Defining British Citizenship Rieko Karatani, 2004-08-02 Unlike many nations Britain had not developed a national citizenship by the 20th century. Instead, belonging in Britain was merely a function of allegiance to the Crown. This lack of definition was seen as beneficial. This title explores the implications of such vagueness as a new millennium begins.

Challenging Racism in Britain and Germany Z. Layton-Henry, C. Wilpert, 2003-03-13 This collection analyses some of the factors that contribute to racism and exclusion in Britain and Germany such as citizenship laws, racial violence, discrimination in education and employment, anti-Semitism, and the rise of the far right. Strategies to combat racism, racist violence, and discrimination in Britain are described and analysed, and proposals for anti-discrimination legislation in Germany are considered.

Citizenship and Immigration in Postwar Britain Randall Hansen, 2000-06-01 In this contentious and ground-breaking study, the author draws on extensive archival research to provide a new account of the transformation of the United Kingdom into a multicultural society through an analysis of the evolution of immigration and citizenship policy since 1945. Against the prevailing academic orthodoxy, he argues that British immigration policy was not racist but both rational and liberal. In this ground-breaking book, the author draws extensively on archival material and theoretical advances in the social science literature. *Citizenship and Immigration in Postwar Britain* examines the transformation since 1945 of the UK from a homogeneous into a multicultural society. Rejecting a dominant strain of sociological and historical inquiry emphasizing state racism, Hansen argues that politicians and civil servants were overall liberal relative to the public to which they owed their office and that they pursued policies that were rational for any liberal democratic politician. He explains the trajectory of British migration and nationality policy: its exceptional liberality in the 1950s, its restrictiveness after then, and its tortured and seemingly racist definition of citizenship. The combined effect of a 1948 imperial definition of citizenship adopted independently of immigration and a primary commitment to migration from the Old Dominions locked British politicians into a series of policy choices resulting in a migration and nationality regime that was not racist in intention but was racist in effect. In the context of a liberal elite and an illiberal public, Britain's current restrictive migration policies result not from the failing of its policy makers but from those of its institutions.
