Commercial Revolution

During the rise of capitalism in Europe, merchants and bankers began to establish

- (1) systems based on bartering
- (2) rules that forbid loans to the wealthy
- (3) quotas to control production
- (4) insurance companies and joint stock companies

Development and expansion of banking, insurance companies, and stock exchanges were essential to the system of

- (1) feudalism
- (2) tribute
- (3) capitalism
- (4) bartering

The development of banking during the Commercial Revolution in western Europe was significant because it

- (1) provided capital resources to merchants for investment
- (2) allowed peasant farmers to finance the construction of new homes
- (3) enabled the proletariat to challenge the bourgeoisie
- (4) created pensions for retired workers

What was one result of the European Commercial Revolution?

City A Global History Universal History

City A Global History Universal History:

The City Joel Kotkin, 2007-12-18 If humankind can be said to have a single greatest creation it would be those places that represent the most eloquent expression of our species's ingenuity beliefs and ideals the city In this authoritative and engagingly written account the acclaimed urbanist and bestselling author examines the evolution of urban life over the millennia and in doing so attempts to answer the age old question What makes a city great Despite their infinite variety all cities essentially serve three purposes spiritual political and economic Kotkin follows the progression of the city from the early religious centers of Mesopotamia the Indus Valley and China to the imperial centers of the Classical era through the rise of the Islamic city and the European commercial capitals ending with today's post industrial suburban metropolis Despite widespread optimistic claims that cities are back in style Kotkin warns that whatever their form cities can thrive only if they remain sacred safe and busy and this is true for both the increasingly urbanized developing world and the often self possessed global cities of the West and East Asia Looking at cities in the twenty first century Kotkin discusses the effects of developments such as shifting demographics and emerging technologies He also considers the effects of terrorism how the religious and cultural struggles of the present pose the greatest challenge to the urban future Truly global in scope *The City* is a timely narrative that will place Kotkin in the company of Lewis Mumford Jane Jacobs and other preeminent urban scholars

Globalization and Global History Barry K. Gills, William Thompson, 2012-11-12 *Globalization and Global History* argues that globalization is not an exotic and new phenomenon Instead it emphasizes that globalization is something that has been with us as long as there have been people who are both interdependent and aware of that fact Studying globalization from the vantage point of long term global history permits theoretical and empirical investigation allowing the authors collected to assess the extent of ongoing transformations and to compare them to earlier iterations With this historical advantage the extent of ongoing changes which previously appeared unprecedented can be

contrasted to similar episodes in the past The book is divided into three sections The first focuses on how globalization has been written about from a historical perspective The second part advances three different takes on how best to view globalization from a very long term stance The final section continues this interpretative thread by examining more narrow aspects of globalization processes ranging from incorporation processes to systemic disruptions *The Status of World History Instruction in American Secondary Schools* William E. Pulliam,1972 The one year course in world history popular in some quarters does not seem to have made much headway High school level courses on world history are one of the many responses to the World Wars yet said courses have never been recommended by a committee of national scope on which there were any historians Opinion surveys among teachers and students indicate that no other part of the typical social studies program is more criticized than the tenth grade level one year elective world history course These courses are increasing in number textbooks are multiplying and a few interesting experiments are being worked out yet there is no general agreement on organization scope objectives teaching strategies or assessment in these courses This document is a summary of historical and recent surveys on curricular trends in social studies with regard to world history to help educators assess what impact they may have on the teaching of world history in the 1970s

Sources for Frameworks of World History Lynne Miles-Morillo,Stephen Morillo,2014 Each chapter in Sources for Frameworks of World History contains four to six sources including photographs graphics maps poetry and cartoons carefully chosen by coeditors Lynne Miles Morillo and Stephen Morillo to specifically complement Frameworks of World History Chapter introductions headnotes and reading questions provide context while a general introduction examines problems and issues in working with and interpreting sources **Technology: A World History** Daniel R. Headrick,2009-04 Technology A World History offers a brilliant history of invention around the globe Historian Daniel R Headrick ranges from the Stone Age and the beginnings of agriculture to the Industrial Revolution and the electronic revolution of the recent past In tracing the growing power of humans over nature through increasingly powerful innovations he compares the evolution of technology in different parts of the world providing a much broader account than is found in other histories of technology **Jumpstarters for World History, Grades 4 - 8** Silvano,2008-09-02 Bring history to life for students in grades 4 and up using Jumpstarters for World History Short Daily Warm Ups for the Classroom This 48 page resource covers ancient civilizations such as the Sumerians the Vikings the Celts the Aztecs and the Romans It includes five warm ups per reproducible page answer keys and suggestions for use

Teaching World History as Mystery Jack Zevin,David Gerwin,2010-12-07 Offering a philosophy methodology and examples for history instruction that are active imaginative and provocative this text presents a fully developed pedagogy based on problem solving methods that promote reasoning and judgment and restore a sense of imagination and participation to classroom learning It is designed to draw readers into the detective process that characterizes the work of professional historians and social scientists sharing raw data defining terms building interpretations and testing competing

theories An inquiry framework drives both the pedagogy and the choice of historical materials with selections favoring the unsolved controversial and fragmented rather than the neatly wrapped up analysis of past events Teaching World History as Mystery Provides a balanced combination of interestingly arranged historical content and clearly explained instructional strategies Features case studies of commonly and not so commonly taught topics within a typical world global history curriculum using combinations of primary and secondary documents Discusses ways of dealing with ethical and moral issues in world history classrooms drawing students into persisting questions of historical truth bias and judgment
