stumbled onto something she is not meant to know a terrifying secret from which there is no turning back Xabbu is a Bushman come to the city to learn skills which may save the spirit of his tribe With the heart of a poet and the soul of a shaman he will journey with Renie on this quest into the very heart of darkness Paul Jonas is lost seemingly adrift in space and time As he flees from the bloody battlefields of World War I to a castle in the sky and onward to lands beyond imagining he must not only evade his terrifying pursuers but solve the terrible riddle of his own identity Fourteen year old Orlando is also the invincible barbarian Thargorm but only in his imagination However youth and frailty are not enough to get you excused from saving the world And Mister Sellars a strange old man on a military base a prisoner of both the government and his own body may be the greatest mystery of all Is he part of The Grail Brotherhood Does he oppose them Or as he sits like a spider at the center of a vast web does he have ambitions of his own The answers will only be found in Otherland

Otherland: Mountain of Black Glass Tad Williams, 2000-09-01 The third book in New York Times bestselling author Tad Williams's cyberpunk fantasy series Tad Williams is the brightest and best of the fantasists Neil Gaiman author of American Gods The Grail Brotherhood has built the most powerful sophisticated simulation network imaginable At the same time they have manipulated and injured the minds of thousands of children This proclamation from the mysterious Mr Sellars confirmed what Renie Sulaweyo had feared to be true when she first broke into the Otherland network in a desperate search for the cause of her brother Stephen's deathlike coma Now Renie the Bushman Xabbu and their companions find themselves navigating a treacherous and ever changing course from a strangely unfinished land to a seemingly endless labyrinthine House pursuing a sociopathic killer who has stolen one of their group To Renie's despair she is no closer to uncovering the secrets which could help save Stephen's life and now it appears that something may be very wrong with the Otherland network itself As Paul Jonas Orlando Renie and the rest strive to reach Priam's Walls in the heart of Troy they know that their quest is running perilously short of time For the Grail Brotherhood has finally set the date for the Ceremony when they will make their bid for the immortality and thereby seal the fate of Earth's children forever But before Renie and her allies can hope to stop the Brotherhood they must first solve the mysteries of Otherland itself and confront its darkest secret an entity known only as the Other

Agent Culture Sabine Payr, Robert Trapp, 2004-06-11 This volume began with a workshop of the Austrian Research Institute for Artificial Intelligence held in 2001 Concerned with embodied agents as cultural objects and subjects the book is divided into three parts It begins by drawing attention to the cultural embeddedness of technology in general and agent design in particular as a reminder that there cannot be an agent without culture The section concludes that agent systems not only can be used to establish a shared understanding but can also promote the diversity of understanding and identity Part II consists of chapters dealing with design concepts and reflections on cross cultural believability It suggests how an agent's behavior may be adapted to the cultural context of application while maintaining consistency and describes an approach based on the OCC model which is widely known and used in the embodied agents

research community Next the section suggests that Affect Control Theory an empirically based mathematically elaborated perspective on microsociology can be incorporated into agents in order to give them a capacity for normative role behaviors and emotional displays Subsequent chapters pass on from more general considerations to the design and implementation of cross cultural characters and present virtual character design from the perspective of the artist and the practitioner in stressing that corporate culture and audience culture s both guide the design choices but the resulting culturally adapted agent is handcrafted It ends with a chapter that reports cross cultural user studies made in the UK Austria and Croatia Part III discusses the potential of agents as mediators in intercultural communication It includes an overview of the ways in which embodied agents are and could be used to coach the acquisition of intercultural communication skills followed by a chapter that suggests agents could be used to intentionally mold intercultural communication The last chapter addresses the need for a shared sense of community in large scale collaboration systems for multi national organizations that transcends any one cultural orientation and that is truly multicultural

Otherland: River of Blue Fire Tad Williams, 1998-07-01 Second book in New York Times bestselling author Tad Williams s cyberpunk fantasy series Tad Williams is the brightest and best of the fantasists Neil Gaiman author of American Gods Otherland In many ways it is humankind s most stunning achievement a private multidimensional universe built over two generations by the greatest minds of the twenty first century But this most exclusive of places is also one of the world s best kept secrets created and controlled by an organization made up of the world s most powerful and ruthless individuals a private cartel known to those who know of their existence at all as The Grail Brotherhood Though their purpose in creating Otherland is still a mystery it may not remain so for long For they have exacted a terrible price from humanity in the process and even their highly organized global conspiracy cannot hide the nature of their crimes forever And now a small band of adventurers has penetrated the veil of secrecy that prevents the uninitiated from entering Otherland But having broken into the amazing worlds within worlds that make up this universe they are trapped unable to escape back to their own flesh and blood bodies in the real world And as dangers and circumstances split their party into small widely scattered groups their only hope of reuniting lies in returning again and again to the River that flows in one form or another through all the worlds But the odds seem to be completely against them as they and the one outsider with whom they might join forces become hopelessly lost in realms where an Ice Age tribe s fears can only be quenched in blood where insects are as large and deadly as dinosaurs where they are caught in the war between a man made of straw and one made of tin where cartoon ads take on a life of their own where humans strive to survive in the aftermath of an alien invasion and where one among their party is actually The Grail Brotherhood s most terrifying weapon a sociopathic killer who has never failed and whose current mission is to make certain that not even one member of this little invasion force lives long enough to reveal the truth about Otherland to the people of Earth
