Competing for Caesar Chammah J. Kaunda, Marja Hinfelaar, 2020-11-03 Competing for Caesar brings together for the first time key scholars working on various issues related to religion and public life in Zambia. They explore the interplay between religion and politics in Zambian society and how these religions manage and negotiate their identities in public life. This book analyzes recent religious dynamics in the nation's political life and considers what constructive role religion could play to promote an alternative political vision to subvert neo-colonialism. Competing for Caesar carries forward a unique commitment on the part of Fortress Press to engage with the challenges and opportunities of Christianity in the Global South. The book will be of interest to scholars, professors and students in a wide range of fields. **The Impact of the United**

Nations Human Rights Treaties on the Domestic Level: Twenty Years On Christof Heyns, Frans Jacobus Viljoen, Rachel Murray, 2024-02-19 This collection of chapters tracks and explains the impact of the nine core United Nations human rights treaties in 20 selected countries, four from each of the five UN regions. Researchers based in each of these countries were responsible for the chapters in which they assess the influence of the treaties and treaty body recommendations on legislation, policies, court decisions and practices. By covering the 20 years between July 1999 and June 2019, this book updates a study done 20 years ago. *The International status of education about the Holocaust* Carrier, Peter, Fuchs,

Eckhardt, Messinger, Torben, Georg Eckert Institute for International Textbook Research (Germany), 2015-01-14 How do schools worldwide treat the Holocaust as a subject? In which countries does the Holocaust form part of classroom teaching? Are representations of the Holocaust always accurate, balanced and unprejudiced in curricula and textbooks? This study, carried out by UNESCO and the Georg Eckert Institute for International Textbook Research, compares for the first time representations of the Holocaust in school textbooks and national curricula. Drawing on data which includes countries in which there exists no or little information about representations of the Holocaust, the study shows where the Holocaust is established in official guidelines and contains a close textbook study focusing on the comprehensiveness and accuracy of representations and historical narratives. The book highlights evolving practices worldwide and thus provides education stakeholders with comprehensive documentation about current trends in curricula, directives and textbook representations of the Holocaust. It further formulates recommendations that will help policy makers provide the educational means by which pupils may develop Holocaust literacy. *The National Bibliography of Zambia*, 2010 *The Bloomsbury Handbook of*

Religious Education in the Global South Yonah Hisbon Matamba, Bruce A. Collet, 2022-02-10 The Bloomsbury Handbook of Religious Education in the Global South presents new comparative perspectives on Religious Education (RE) across the Global South. Including 23 chapters written by scholars from the Global North and South, this is the first authoritative reference work on the subject. The handbook is thematically organised into seven sections. The first three sections deal with provision, response to changes in contemporary society and decolonizing RE. The next four sections explore young people and RE.

perspectives on teachers RE in higher education and finally challenges and opportunities for RE The term Global South is used here primarily to signify the deep economic divide with the Global North but the concept is also examined in historical geographical political social and cultural terms including the indelible influence of religion in all four broadly defined regions Exploring RE from local cross national as well as regional and sub regional perspectives the handbook examines RE from its diverse past present realities and envisioned future revealing not only tensions contestations injustices and inequalities of power but importantly how inclusive forms of RE can help solve these problems **Social Studies in African Education**
