Detracking For Excellence And Equity:

Detracking for Excellence and Equity Carol Corbett Burris, Delia T. Garrity, 2008 Proven strategies for launching sustaining and monitoring a reform that will offer all students access to the best curriculum raise achievement across the board and close the achievement gap

On the Same Track Carol Corbett Burris, 2015-03-17 A public school principal's account of the courageous leaders who have dismantled the tracking systems in their schools in order to desegregate classrooms What would happen if a school eliminated the tracks that rank students based on their perceived intellectual abilities Would low achieving students fall behind and become frustrated Would their higher achieving peers suffer from a watered down curriculum Or is tracking itself the problem A growing body of research shows that tracking doesn't increase learning for the minority and low income students who are overrepresented in low track classrooms This de facto segregation has led many civil rights advocates to argue that tracking is turning back the clock on equal education As a principal at a New York high school Carol Corbett Burris believed that the curriculum for the best students was the best curriculum for all She helped lead a bold plan to eliminate tracking from her school and the results couldn't have been further from the doom and gloom scenarios of tracking proponents Instead there was a dramatic improvement in the achievement of all students across racial and socioeconomic divisions and a near elimination of the achievement gap Today due to those efforts International Baccalaureate English is the twelfth grade curriculum for South Side students and all students take the same challenging courses together to prepare them for college In *On the Same Track* Burris draws on her own experience on the experiences of other schools and on the latest research to make an impassioned case for detracking Not only does the practice of tracking fail to benefit lower tracked students as Burris shows but it also results in the resegregation of classrooms Furthermore she argues that many of today's popular reforms emanate from the same sort and select mentality that reinforces social stratification based on race and class *On the Same Track* is a rousing controversial and yet optimistic account of how we need to change our assumptions and policies if we are to live up to the promise of democratic public education Only by holding all students to the same high standards can we ensure that all have the same opportunity to live up to their full potential

Students of Color and the Achievement Gap Richard R. Valencia, 2015-03-05 *Students of Color and the Achievement Gap* is a comprehensive landmark analysis of an incontrovertible racialized reality in U S K 12 public education the relentless achievement gap between low socioeconomic students of color and their economically advantaged White counterparts Award winning author and scholar Richard Valencia provides an authoritative and systemic treatment of the achievement gap focusing on Black and Latino/Latina students He examines the societal and educational factors that help to create and maintain the achievement gap by drawing from critical race theory an asset based perspective and a systemic inequality approach By showing how racialized opportunity structures in society and schools ultimately result in racialized patterns of academic achievement in schools Valencia shows how the various indicators of the achievement gap

are actually symptoms of the societal and school quality gaps Following each of these concerns Valencia provides a number of reform suggestions that can lead to systemic transformations of K 12 education Students of Color and the Achievement Gap makes a persuasive and well documented case that school success for students of color and the empowerment of their parents can only be fully understood and realized when contextualized within broader political economic and cultural frameworks **Equity Visits** Rachel Roegman,David Allen,Larry Leverett,Scott Thompson,Thomas Hatch,2019-08-07

Because equity and instruction are inextricably bound Why are equity visits such a critical first step to increasing opportunity and access for our under served students Because they take instructional rounds to a new level providing a powerful lens for investigating the intersections of equity and instruction After all how can we possibly deliver equitable learning experiences opportunities and outcomes for our students without first pinpointing problems of practice That s where Equity Visits will prove absolutely indispensable to district and school administrators It details how to combine a strong focus on instruction with explicit intentional efforts to address systemic inequities Inside you ll find A range of data collection activities and tools to target central issues of equity in your school Clear guidelines on how to investigate the ways instructional practices structures and beliefs lead to inequitable educational experiences and how these are often masked in the day to day life of schools and districts A frank discussion of how to make race and racism an explicit part of investigating and addressing educational inequities Voices of school and district leaders who have taken crucial first steps to become equity warriors Recommendations on how to develop policies initiatives and practices to confront those inequities Few dispute that instructional improvement must be a central focus of educational leadership but for too long achieving educational equity has been absent from the conversation Here is your opportunity to ensure equity occupy a central spot in data collection and analysis and be explicitly discussed at all levels of your school or district organization In short essential reading and doing for all administrators **Advancing Equity and Achievement in America's Diverse Schools** Camille Wilson,Sonya

Horsford,2013-09-05 Advancing Equity and Achievement in America s Diverse Schools illustrates how educators students families and community partners can work in strategic ways to build on social cultural and ethnic diversity to advance educational equity and achievement By drawing on the latest data on demographic change constructions of culture and cultural difference and the politics of school reform in urban rural and suburban school communities this volume looks toward solutions and strategies for meaningful educational improvement Contributors consider both the diversity of youth and families served in public schools and the culture of U S schooling highlighting the influence of policy and reform agendas students identities and agency experiences and approaches of diverse educators and the workings of effective school partnerships Chapters also focus on those often overlooked in educational scholarship such as Native Americans students experiencing poverty and or homelessness Muslim students students with special needs and students and educators who are lesbian gay bisexual transgender intersex or queer In all this edited collection stresses the need for high quality education

that is inclusive culturally responsive and unifying so all students can experience academic success This book is a meaningful resource for educators policymakers and community based leaders interested in doing such transformative work

Minding the Marginalized Students Through Inclusion, Justice, and Hope Jose W. Lalas, Heidi Luv

Strikwerda, 2021-07-26 While the issue of advancing equity occupies the pages of many education journals across the world and pursuing it in schools and classrooms is a common instructional goal there is an obvious absence of established school policies combined with pedagogies on how to achieve educational equity

Opening the Common Core Carol Corbett Burris, Delia T. Garrity, 2012-03-13 The CCSS open the door to success Do you wish you could leverage the Common Core State Standards CCSS to equip all students not just high achievers with the higher level thinking skills they need You can and this book will show you how The authors helped lead their district Rockville Centre in Long Island New York in closing achievement gaps and increasing the number of students who completed four year college programs The results of their efforts show a remarkable increase in both excellence and equity in English language arts math and science This book outlines the authors research based ACES framework for instructional improvement to help achieve similar results Acceleration rather than remediation Critical thinking Equity in education for all students Support Educators will find practical strategies that are applied and developed in model lessons linked to the CCSS and KSUS Knowledge and Skills for University Success standards Understanding why we need to prepare all children to be college and career ready is easy Making it happen is not Learn from those who have succeeded and your students will reap the rewards *Ed.D. Programs as Incubators for Social Justice Leadership* Antonio L. Ellis, 2016-02-10 This book shares the thoughts of mostly North American scholars on many interrelated topics that have not previously been linked in academic research The focus of the book is the belief that the Ed D can prepare highly competent justice oriented scholars who will be engaged with communities Among these future leaders the contributors envision educators who not only lead public schools but also private foundations not for profit organizations and community centers An outstanding feature of this volume is that each chapter highlights existing and emerging issues such as but not limited to candidate recruitment and admission policies program funding fees and student expenses academic support services faculty recruitment compensation evaluation and promotion models on site on line instruction internship policy opportunities for graduate student employment publishing and conference engagement student supervision protocols and dissertation and capstone project parameters In addition the book explores cultural and socio political contexts public private sector relationships and the kinds of legislation that frame Ed D theory policy and practice from a social justice perspective At its best higher education is an indispensable space for spotlighting challenging and addressing injustice This important volume offers us the conceptual methodological empirical and pedagogical tools necessary for understanding the relationship between doctoral education and social justice work Antonio Ellis has assembled an impressive array of scholars who help us understand the promise and possibility of Ed D

programs Marc Lamont Hill Host for the Black Entertainment Network Contributor for CNN and Distinguished Professor of African American Studies at Morehouse College This volume helps to clarify what is meant by social justice in school leadership settings and provides both philosophical and theoretical perspectives as well as strategies and curricular content that can assist in developing a common sense understanding of social justice The development of a mental frame of reference is critical to being able to transfer that understanding and curricular content into beliefs and practices As a professor of educational leadership and a college administrator I am most pleased to find a volume that provides perspectives and strategies which can be employed by academicians teaching in leadership programs and practitioners as they lead and prepare others to become leaders Zollie Stevenson Jr Associate Vice President for Academic Affairs and Associate Professor Philander Smith College

Research on Schools, Neighborhoods and Communities William F. Tate, 2012-02-23
Research on Schools Neighborhoods and Communities Toward Civic Responsibility focuses on research and theoretical developments related to the role of geography in education human development and health William F Tate IV the Edward Mallinckrodt Distinguished University Professor in Arts Sciences at Washington University in St Louis and former President of the American Educational Research Association presents a collection of chapters from across disciplines to further understand the strengths of and problems in our communities Today many research literatures e g health housing transportation and education focus on civic progress yet rarely are there efforts to interrelate these literatures to better understand urgent problems and promising possibilities in education wherein social context is central In this volume social context in particular the unequal opportunities that result from geography is integral to the arguments analyses and case studies presented Written by more than 40 educational scholars from top universities across the nation the research presented in this volume provides historical moral and scientifically based arguments with the potential to inform understandings of civic problems associated with education youth and families and to guide the actions of responsible citizens and institutions dedicated to advancing the public good

Learning from the Federal Market-Based Reforms William J. Mathis, Tina M. Trujillo, 2016-06-01 Over the past twenty years educational policy has been characterized by top down market focused policies combined with a push toward privatization and school choice The new Every Student Succeeds Act continues along this path though with decision making authority now shifted toward the states These market based reforms have often been touted as the most promising response to the challenges of poverty and educational disenfranchisement But has this approach been successful Has learning improved Have historically low scoring schools turned around or have the reforms had little effect Have these narrow conceptions of schooling harmed the civic and social purposes of education in a democracy This book presents the evidence Drawing on the work of the nation's most prominent researchers the book explores the major elements of these reforms as well as the social political and educational contexts in which they take place It examines the evidence supporting the most common school improvement strategies school choice

reconstitutions or massive personnel changes and school closures From there it presents the research findings cutting across these strategies by addressing the evidence on test score trends teacher evaluation miracle schools the Common Core State Standards school choice the newly emerging school improvement industry and re segregation among others The weight of the evidence indisputably shows little success and no promise for these reforms Thus the authors counsel strongly against continuing these failed policies The book concludes with a review of more promising avenues for educational reform including the necessity of broader societal investments for combatting poverty and adverse social conditions While schools cannot single handedly overcome societal inequalities important work can take place within the public school system with evidence based interventions such as early childhood education detracking adequate funding and full service community schools all intended to renew our nation s commitment to democracy and equal educational opportunity
