From Subjects to Citizens Pierre Boyer, Linda Cardinal, David Headon, 2004-02-27 Australia and Canada are both lively multicultural societies with British constitutional traditions Historically they have faced similar challenges in defining and sustaining citizenship that reach back into a common past They also have similar approaches to address contemporary issues and anticipate the challenges of a 21st century future New perspectives on the culture and politics of citizenship emerge in this timely text that is essential reading for those interested in the steadily expanding ties between Australia and Canada Published in English The Color of the Land David A. Chang, 2010-02-01

The Color of the Land brings the histories of Creek Indians African Americans and whites in Oklahoma together into one story that explores the way races and nations were made and remade in conflicts over who would own land who would farm it and who would rule it This story disrupts expected narratives of the American past revealing how identities race nation and class took new forms in struggles over the creation of different systems of property Conflicts were unleashed by a series of sweeping changes the forced removal of the Creeks from their homeland to Oklahoma in the 1830s the transformation of the Creeks enslaved black population into landed black Creek citizens after the Civil War the imposition of statehood and private landownership at the turn of the twentieth century and the entrenchment of a sharecropping economy and white supremacy in the following decades In struggles over land wealth and power Oklahomans actively defined and redefined what it meant to be Native American African American or white By telling this story David Chang contributes to the history of racial construction and nationalism as well as to southern western and Native American history **Insurgent Urbanisms in the Americas** Kristine

Stiphany, Edna Ely-Ledesma, 2025-09-30 Insurgent Urbanisms are often portrayed as spontaneous grassroots responses to the inequities embedded in urban policies and operating entirely outside state structures But are they truly autonomous In *Insurgent Urbanisms in the Americas* Kristine Stiphany and Edna Ely Ledesma offer a new perspective on how struggles for more inclusive and equitable cities take shape and how they transform the very institutions and spaces they confront From Brazil's favelas to Ecuador's suburbios and Puerto Rico's hurricane battered shores to the gentrified centers of U S cities marginalized communities have long challenged dominant models of urban development Over time these struggles have not only resisted the status quo but have become new modes of urbanism and sites of planning Stiphany and Ely Ledesma show how insurgencies connect across places while remaining deeply context specific tracing their origins in housing movements their evolution through co produced knowledge and their reinvention in response to climate crisis Through powerful field research and firsthand activism contributors reveal how insurgencies not only resist but actively reshape urban orders built

environments and public landscapes issuing a compelling call to make urbanism matter This volume is essential reading for students educators and practitioners of design and urban planning Latin American and Latinx studies and spatial justice anyone seeking to understand how insurgency becomes a method for transforming cities **The Crossroads Cafe** Deborah Smith,2006-09-15 The world s most beautiful movie star is scarred in a fiery car accident Her career over and her self esteem in shreds she hides in the magnificent home her grandmother left her in the mountains of North Carolina But her motherly cousin refuses to let her become a recluse and a handsome neighbor with painful dilemmas of his own is lured into the mix Romance family life drama humor and secrets **History of Columbiana County, Ohio and Representative Citizens** William B. McCord,1905 **The American Novel to 1870** J. Gerald Kennedy,Leland S. Person,2014 The American Revolution and the Civil War bracket roughly eight decades of formative change in a republic created in 1776 by a gesture that was both rhetorical and performative The subsequent construction of U S national identity influenced virtually all art forms especially prose fiction until internal conflict disrupted the project of nation building This volume reassesses in an authoritative way the principal forms and features of the emerging American novel It will include chapters on the beginnings of the novel in the US the novel and nation building the publishing industry leading novelists of Antebellum America eminent early American novels cultural influences on the novel and subgenres within the novel form during this period This book is the first of the three proposed US volumes that will make up Oxford s ambitious new twelve volume literary resource The Oxford History of the Novel in English OHONE a venture being commissioned and administered on both sides of the Atlantic
