W. CARSON RYAN, JR., 1919 **International Handbook of Student Experience in Elementary and Secondary School** D. Thiessen, Alison Cook-Sather, 2007-06-03 The International Handbook of Student Experience in Elementary and Secondary School brings together in a single volume the groundbreaking work of scholars who have conducted studies of student experiences of school in Afghanistan Australia Canada England Ghana Ireland Pakistan and the United States Drawing extensively on students interpretations of their experiences in school as expressed in their own words chapter authors offer insight into how students conceptualize and approach school understand and address the ongoing social opportunities for and challenges in working with other students and teachers and the multiple ways in which they shape and contribute to school improvement The individual chapters are framed by an opening chapter which provides background on bases of and trends in research on students experiences of school and a final chapter which uses the interpretive framework translation provided to explore how researching students experiences of school challenges those involved to translate their qualitative research methods the terms they evoke to describe and define students experiences of schools and in fact themselves as researchers **Activate!** Lee Jerome, Adam Turner Newman, 2001 Provides departmental and whole school strategies for delivering and answering citizenship This resource includes background material to the subject and suggests ways of teaching citizenship effectively **Teaching Human Rights in Primary Schools** Alison E. C. Struthers, 2019-11-07 Teaching Human Rights in Primary Schools delves into the important issue of Human Rights Education HRE implementation exploring the nature and extent of HRE in education policy and practice in English primary schooling and seeking to understand the reasons for deficiencies in practice in this area HRE enables people not only to identify rights violations in their own lives but also equips them with the knowledge values and skills required to accept defend and promote human rights more broadly An awareness of human rights is therefore crucial no matter what a person's age and as such it is vital that information about human rights is included within formal education Beginning with an overview of the relevant international obligations and agreements related to HRE Struthers then demonstrates that these are ostensibly not currently being met in either policy or practice in England The book then draws upon current literature and empirical research with teachers to explore and analyse the barriers to HRE implementation While the book uses the specific context of English primary education it makes broad interdisciplinary recommendations concerning how the provision of HRE could be improved which will be relevant to other countries instituting programmes of HRE or values and citizenship education Interdisciplinary in nature and addressing HRE at both the international and domestic levels this book will be of great interest to scholars researchers and postgraduate students in both education and law It will be of particular interest to those engaged in the study of human rights children's rights and education law as well as those interested in curriculum policy and
