in a spread of the citrus industry to the south This southward trend was speeded by the freeze of 1899 and the great est area of the citrus industry today is in central Florida where the cold hazards are far less than those which faced the early growers About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      *Citrus* ,1996 A guide to selecting and growing more than one hundred varieties of oranges mandarins lemons limes grapefruit and kumquats as well as exotic citrus offering practical methods for making citrus part of outdoor living areas and discussing alternative chemical free methods of pest control to ensure healthy as well as healthful fruit      **Florida Fruit and Produce News** ,1928
