reveal our moral and social conditions In this trenchant work Arthur Kleinman a renowned figure in medical anthropology and Iain Wilkinson an award winning sociologist team up to offer some answers to these profound questions A Passion for Society investigates the historical development and current state of social science with a focus on how this development has been shaped in response to problems of social suffering Following a line of criticism offered by key social theorists and cultural commentators who themselves were unhappy with the professionalization of social science Wilkinson and Kleinman provide a critical commentary on how studies of society have moved from an original concern with social suffering and its amelioration to dispassionate inquiries The authors demonstrate how social action through caring for others is revitalizing and remaking the discipline of social science and they examine the potential for achieving greater understanding through a moral commitment to the practice of care for others In this deeply considered work Wilkinson and Kleinman argue for an engaged social science that connects critical thought with social action that seeks to learn through caregiving and that operates with a commitment to establish and sustain humane forms of society

Arc 1.2 Post human conditions Nick Harkaway, Jeff VanderMeer, Frederik Pohl, P. D. Smith, Anne Galloway, T.D. Edge, Holly Gramazio, Paul McAuley, 2012 Arc's unique mix of fact opinion and fiction explores the possibilities for a species that can't seem to stop tinkering with itself P D Smith explores the city as pleasure palace Holly Gramazio and Kyle Munkittrick each explore the friction points between civics and play while science fiction writer Gord Sellar wonders why arguably the most forward looking nation on earth shows no interest in futurology Taking a longer view Anne Galloway Regina Pelsdzus suggests ways of surviving the tedium of deep space and Sonja Vesterholt Simon Ings trace Prometheus's horrific aliens back to the utopian designs of long forgotten Soviet filmmaker Pavel Klushantsev In this issue's stories Paul McAuley's The Man is apparently less than human but embodies qualities his human companions seem to have forgotten T D Edge creates a polysentient world defined entirely by relationships Jeff VanderMeer stretches human limits far beyond the ordinary And Nick Harkaway's mordant comedy Attenuation skewers our love of novelty and transformation

The Site of the Convent of the Holy Infant Jesus in Singapore Sandra Hudd, 2016-06-17 The Site of the Convent of the Holy Infant Jesus in Singapore Entwined Histories of a Colonial Convent and a Nation 1854-2015 explores key issues and developments in colonial and postcolonial Singapore by examining one particular site in central Singapore the former Convent of the Holy Infant Jesus established in 1854 and now a food and entertainment complex The Convent was an early provider of social services and girls education almost a mini city within walls including a thriving community of schools an orphanage and a women's refuge World War II and the Japanese occupation followed by the creation of the new Republic of Singapore presented a new set of challenges but it was the convent's size and prime location that made it attractive for urban redevelopment in the 1980s and led to government acquisition demolition of some buildings and the remainder put out to private tender The chapel and the former nuns residence are classified as National Monuments but in line with government policy of adaptive re use of heritage sites the

complex now contains bars and restaurants and the deconsecrated chapel is used for wedding receptions and events Tracking the physical and usage changes of the site this book works to make sense of that eventful journey a paradoxical journey that moves only in time not in space and includes abandoned babies French nuns Japanese bombings and twenty first century dance parties In a society that has undergone massive change economically and socially and above all transitioned from a small colonial enterprise to a wealthy independent city state those physical changes and differing usages of the Convent site over the years track the changes in the nation The wider ongoing tensions between heritage conservation and the modern global city are explored by examining what has been chosen for preservation the quintessentially Singaporean hybridity of the commercial reuse of historic buildings as well as the nostalgia for what has been lost *The Oxford Handbook of Postwar European History* Dan Stone, 2012-05-17 The postwar period is no longer current affairs but is becoming the recent past As such it is increasingly attracting the attentions of historians Whilst the Cold War has long been a mainstay of political science and contemporary history recent research approaches postwar Europe in many different ways all of which are represented in the thirty five chapters of this book As well as diplomatic political institutional economic and social history The Oxford Handbook of Postwar European History contains chapters which approach the past through the lenses of gender espionage art and architecture technology agriculture heritage postcolonialism memory and generational change and shows how the history of postwar Europe can be enriched by looking to disciplines such as anthropology and philosophy The Handbook covers all of Europe with a notable focus on Eastern Europe Including subjects as diverse as the meaning of Europe and European identity southern Europe after dictatorship the cultural meanings of the bomb the 1968 student uprisings immigration Americanization welfare leisure decolonization the Wars of Yugoslav Succession and coming to terms with the Nazi past the essays in this Handbook offer an unparalleled coverage of postwar European history that offers far more than the standard Cold War framework Readers will find self contained state of the art analyses of major subjects each written by an acknowledged expert as well as stimulating and novel approaches to newer topics Combining empirical rigour and adventurous conceptual analysis this Handbook offers in one substantial volume a guide to the numerous ways in which historians are now rewriting the history of postwar Europe
