City Louisville Glimpse Kentucky:

Men Who Built Louisville, The: The City of Progress in the Gilded Age Bryan S. Bush, 2019 From 1870 to 1900 Louisville became a larger part of the American Industrial Revolution The expansion of railroads was a key factor to becoming a center for industry trade and commerce Paul Jones Jr helped the city become a world leader in bourbon production and Louisville was the largest tobacco manufacturer due to successful brokers like Andrew Graham John Leather's jean cloth facility was among the most productive in the world The largest box factory also resided in the city and Louisville became the banking capital of the South Author Bryan S Bush details those behind the massive industry in the City of Progress Kentucky Illustrated Martin F. Schmidt, 2014-07-15 Kentucky Illustrated brings together a substantial portion of the pictorial scenes published during Kentucky's first century many of them rare prints reproduced here for the first time since their original publication From the frontier days of Daniel and Squire Boone to the rise of the railroads that opened the state to visitors who toured its landmarks and bathed in its springs more than two hundred views offer a picture of Kentucky's growth and civilization Until the 1890s Kentucky was sketched in the words of adventurers travelers and journalists but all most Americans knew of the face of Kentucky was the occasional engraving that appeared in popular publications such as Harper's Weekly and Scribner's Monthly The camera was not widely used and photographs could not yet be reproduced for mass distribution so each illustration was captured by an artist and translated by an engraver before it reached the imagination of the viewer Readers will enjoy chapters on the frontier the Civil War education and religion urban and rural life making a living the natural world and roads rivers and rails State historian James C Klotter provides an overview of Kentucky history that enhances the illustrations and Joe Nickell's description of early print methods allows readers to appreciate fully the art form as it was practiced in the nineteenth century Captions include both historical background and information on artists lithographers and printers This handsome collection of rare early views will delight all Kentuckians as well as historians teachers librarians and students George Keats of Kentucky Lawrence M. Crutcher, 2012-11-30 John Keats's biographers have rarely been fair to George Keats 1797 1841 pushing him to the background as the younger brother painting him as a prodigal son or labeling him as the business brother Some have even condemned him as a heartless villain who took more than his fair share of an inheritance and abandoned the ailing poet to pursue his own interests In this authoritative biography author Lawrence M Crutcher demonstrates that George Keats deserves better Crutcher traces his subject from Regency London to the American frontier correcting the misconceptions surrounding the Keats brothers relationship and revealing the details of George's remarkable life in Louisville Kentucky Brilliantly illustrated with more than ninety color photographs this engaging book reveals how George Keats embraced new business opportunities to become an important member of the developing urban community In addition George Keats of Kentucky offers a rare and fascinating glimpse into nineteenth century life commerce and entrepreneurship in Louisville and the Bluegrass Kentucky Countryside in Transition

Stephanie Bower, 2024-01-12 *Kentucky Countryside in Transition* charts the rise of the American middle class at the turn of the twentieth century by examining the migration from the Kentucky countryside to the city and subsequently the suburbs of Louisville. The formation of the middle class in Louisville was fostered by two factors: a boom in white collar employment and the electric streetcar, an innovation that fundamentally changed the urban landscape. Ultimately, a narrative of industrialization and modernity. This study focuses on a group of forty-two families who lived at the end of the Broadway Trolley line in an area that came to be known as the Cherokee Triangle. This suburban neighborhood was dominated by white collar commuters who were driven to Louisville by a desire to get ahead but continued to embrace a nostalgia for country life. In this meticulous three-generation study, Stephanie Bower follows this group of families as they make the transition from rural farmers and cultivators to city laborers and white collar workers. By mining census records, city directories, and county records, Bower carefully reconstructs the biographical details of residents in an effort to paint a picture of life in this streetcar suburb during this important period of transformation. Regional studies of the middle class during this pivotal era are often overlooked in contemporary scholarship. Consequently, this analysis will be of interest to those researching Louisville middle class formation and suburbanization, as well as to local genealogists tracing their family histories. Stephanie Bower is professor emerita of history at the University of Indiana Southeast. She is the author of *Famism: The Impact of Demographic Factors on Family Structure* and her articles have appeared in *Hispanic American History Review*, *The Americas*, *LOCUS*, and *Historical Methods*.

Louisville's Fern Creek Cheryl Brandreth, Geoffrey Long Brandreth, 2015-05-11 Located in southeastern Jefferson County, Louisville's Fern Creek community was settled in the 1780s with land grants given by Virginia for military service. The construction of the Louisville Bardstown Turnpike encouraged Fern Creek's growth as farmers settled the land along the route. Originally known as Stringtown for the appearance of the houses that sprang up along Bardstown Pike, Fern Creek is named after the creek that meanders through the area. Due to the abundant sources of water throughout the southeastern portion of Jefferson County, several mills operated in the area, most notably in Buechel on Cedar Creek and on Floyd's Fork. The erection of mills provided early settlers the means to grind corn and wheat. Originally an agricultural community of fields, orchards, and stables, Fern Creek established the Farmers and Fruit Growers Association in 1880 and the Jefferson County Fair Company, which operated at the Fern Creek Fairgrounds until 1928.

Bourbon's Backroads Karl Raitz, 2021-06-29 Kentucky's landscape is punctuated by landmark structures that signpost bourbon's venerable story: distilleries long standing, relict razed, and brand new; the grand nineteenth-century homes of renowned distillers; villages and neighborhoods where distillery laborers lived; Whiskey Row storage warehouses, river landings, and railroad yards; and factories where copper distilling vessels and charred white oak barrels are made. During the nineteenth century, distilling changed from an artisanal craft practiced by farmers and millers to a large-scale mechanized industry that practiced increasingly refined production.

techniques Distillers often operated at comparatively remote sites along the backroads to take advantage of water sources or river or turnpike transport access As time passed steam power and mechanization freed the industry from its reliance on waterpower and permitted distillers to relocate to urban and rural rail side sites This shift also allowed distillers to perfect their production techniques increase their capacity and refine their marketing strategies The historic progression produced the fine Kentucky bourbons that are available to present day consumers Yet distillers have not abandoned their cultural roots and traditions their iconic products embrace the modern while also engaging their history and geography Blending several topics inventions and innovations in distilling and transport technologies tax policy geography landscapes and architecture this primer and geographical guide presents an accessible and detailed history of the development of Kentucky s distilling industry and explains how the industry continues to thrive *Kentucky in the Nation's History* Robert McNutt McElroy, 1909 In the preparation of the present volume I have studied the local collections from the point of view of one primarily interested in the nation Such local events as have had a distinctly national influence as well as such national events as have particularly affected local conditions have been my concern A typical example of the first is presented in the Kentucky Resolutions of 1798 and of the second in the purchase of Louisiana Glimpses Paul Sumner Nickerson, 1923 *The City of Louisville and a Glimpse of Kentucky* Young E Allison, 2015-08-11 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant
