Performances Jeanne Scheper, 2016-12-13 Fabulous yet fierce imperious yet impetuous boss yet bitchy divas are figures of paradox Their place in culture is equally contradictory as they are simultaneously venerated and marginalized hailed as timeless but then frequently forgotten or exhumed as cult icons by future generations Focusing on four early twentieth century divas Aida Overton Walker Loie Fuller Libby Holman and Josephine Baker who were icons in their own time Moving Performances considers what their past and current reception reveals about changing ideas of race and gender Jeanne Scheper examines how iconicity can actually work to the diva's detriment reducing her to a fetish object a grotesque or a figure of nostalgia Yet she also locates more productive modes of reception that reach to revive the diva's moving performances imbuing her with an affective afterlife As it offers innovative theorizations of performance reception and affect Moving Performances also introduces readers to four remarkable women who worked as both cultural producers and critics deftly subverting the tropes of exoticism orientalism and primitivism commonly used to dismiss women of color Rejecting iconic depictions of these divas as frozen in a past moment Scheper vividly demonstrates how their performances continue to inspire ongoing movements

Law In and As Culture Caroline Joan "Kay" S. Picart, 2016-03-04 There are two oppositional narratives in relation to telling the story of indigenous peoples and minorities in relation to globalization and intellectual property rights The first the narrative of Optimism is a story of the triumphant opening of brave new worlds of commercial integration and cultural inclusion The second the narrative of Fear is a story of the endangerment mourning and loss of a traditional culture While the story of Optimism deploys a rhetoric of commercial mobilization and innovation the story of Fear emphasizes the rhetoric of preserving something pure and traditional that is dying Both narratives have compelling rhetorical force and actually need each other in order to move their opposing audiences into action However as Picart shows the realities behind these rhetorically framed political parables are more complex than a simple binary Hence the book steers a careful path between hope rather than unbounded Optimism and caution rather than Fear in exploring how law functions in and as culture as it contours the landscape of intellectual property rights as experienced by indigenous peoples and minorities Picart uses among a variety of tools derived from law critical and cultural studies anthropology and communication case studies to illustrate this approach She tracks the fascinating stories of the controversies surrounding the ownership of a Taiwanese folk song the struggle over control of the Mapuche's traditional land in Chile against the backdrop of Chile's drive towards modernization the collaboration between the Kani tribe in India and a multinational corporation to patent an anti fatigue chemical agent the drive for respect and recognition by Australian Aboriginal artists for their visual expressions of folklore and the challenges American women of color such as Josephine Baker and Katherine Dunham faced in relation to the evolving issues of choreography improvisation and copyright The book also analyzes the cultural conflicts that

result from these encounters between indigenous populations or minorities and majority groups reflects upon the ways in which these conflicts were negotiated or resolved both nationally and internationally and carefully explores proposals to mediate such conflicts
