## **Citizenship And The Pursuit Of The Worthy Life:**

**The Polycentric Republic** David Thunder, 2025-01-21 The Polycentric Republic presents a compelling and innovative critique of modern social contract theory. It reveals how the social contract theory systematically neglects the interests and prerogatives of non-State associations and legitimates an imposing sovereign State that jeopardizes the freedom and integrity of communities and associations under its rule. Drawing on neo-Aristotelian virtue ethics, institutional theory, and political history, the author invites us to reimagine civil order in a way that is more friendly to the diverse interests and prerogatives of non-State communities and organizations, from churches, schools, and universities to farming co-ops, businesses, villages, and towns. Building on MacIntyre's diagnosis of the moral and institutional failures of the modern State, this book offers a historically informed and institutionally rigorous critique of the pathologies of sovereign power. In addition, it proposes a novel reinterpretation of federalism as a complex emergent order created through bottom-up inter-group cooperation, constrained by the rule of law but consistent with a wide variety of independent communities and ways of life. The Polycentric Republic is essential reading for anyone interested in rethinking State-centric approaches to governance and civil order and exploring the merits of non-Statist pluralist approaches, be they citizens, policymakers, or students of political science, political philosophy, law, or political economy.

**Citizenship and the Pursuit of the Worthy Life** David Thunder, 2014-08-11 What does citizenship have to do with living a worthy human life? Political scientists and philosophers who study the practice of citizenship, including Rawlsian liberals and Niebuhrian realists, have tended to either relegate this question to the private realm or insist that ethical principles must be silenced or seriously compromised in our deliberations as citizens. This book argues that the insulation of public life from the ethical standpoint puts in jeopardy not only our integrity as persons but also the legitimacy and long-term survival of our political communities. In response to this predicament, David Thunder aims to rehabilitate the ethical standpoint in political philosophy by defending the legitimacy and importance of giving full play to our deepest ethical commitments in our civic roles and developing a set of guidelines for citizens who wish to enact their civic roles with integrity.

**The Ethics of Citizenship in the 21st Century** David Thunder, 2017-03-08 This collection of essays offers thoughtful discussions of major challenges confronting the theory and practice of citizenship in a globalized, socially fragmented, and multicultural world. The traditional concept of citizenship as a shared ethnic, religious, and/or cultural identity has limited relevance in a multicultural world, and even the connection between citizenship and national belonging has been put in jeopardy by increasing levels of international migration and mobility, not to mention the pervasive influence of a global economy and mass media whose symbols and values cut across national boundaries. Issues addressed include the ethical and practical value of patriotism in a globalized world, the standing of conscience claims in a morally diverse society, the problem of citizen complicity in national and global injustice, and the prospects for a principled acceptance by practising Muslims of a liberal constitutional order. In spite of the impressive

diversity of philosophical traditions represented in this collection including liberalism pragmatism Confucianism Platonism Thomism and Islam all of the volume s contributors would agree that the crisis of modern citizenship is a crisis of the ethical values that give shape form and meaning to modern social life This is one of the few edited volumes of its kind to combine penetrating ethical discussion with an impressive breadth of philosophical traditions and approaches Chapters What is the use of an Ethical Theory of Citizenship and An Ethical Defense of Citizenship are available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com)      **Globalization and Citizenship in the**

**Asia-Pacific** A. Davidson,K. Weekley,1999-04-25 Millions of people around the Asia Pacific region are suffering from the twin effects of globalization and exclusionary nationality laws Some are migrant workers without rights in host countries some are indigenous peoples who are not accorded their full rights in their own countries Yet others are refugees escaping from regimes that have no respect for human rights This collection of essays discusses the ways in which citizenship laws in the region might be made consistent with human dignity It considers the connectedness of national belonging and citizenship in East and Southeast Asian and Pacific states including Australia the impact of mass migration cultural homogenization and other effects of globalization on notions of citizenship and possibilities of commitment to a transnational democratic citizenship that respects cultural difference      *The Multifacetedness of Reasonableness in Legal and in Political Theory* Michele Mangini,2025-10-14 This book offers a complete overview of the complex topic of reasonableness Ranging through ethics political theory and legal theory the author shows how reasonable is an unescapable evaluative term One uses this concept to evaluate positively or negatively it is unreasonable both our conduct and that of others However we are often not aware of the presuppositions behind our use of the concept Especially the legal use both in civil and in common law reveals a large variety of meanings and the so called multifacetedness of reasonableness In an age in which the environmental crisis or global climate change threatens our style of life we badly need criteria of evaluation that we all can share This book therefore provides a unitary conception that connects to the ethics of virtues as the fabric that links the many uses of the reasonable

**Augustine and Contemporary Social Issues** Paul L. Allen,2022-07-27 This book focuses on applying the thought of Saint Augustine to address a number of persistent 21st century socio political issues Drawing together Augustinian ideas such as concupiscence virtue vice habit and sin through social and textual analysis it provides fresh Augustinian perspectives on new yet somehow familiar quandaries The volume addresses the themes of fallenness politics race and desire It includes contributions from theology philosophy and political science Each chapter examines Augustine s perspective for deepening our understanding of human nature and demonstrates the contemporary relevance of his thought      **Culture, Secularization, and Democracy** Sophie van Bijsterveld,Hans-Martien ten Napel,2024-06-25 Following the approach developed by Alexis de Tocqueville this volume views democracy as a cultural phenomenon It starts from the assumption that if we are to adequately address concerns about the current state and future of modern Western democracies we need first to

tackle the cultural preconditions necessary for the functioning of a democracy Since Tocqueville's time the book takes the most crucial change in the West to be double secularisation Here this concerns first the diminished influence of organised Christianity Even though secularity was partly a product of Christianity secularisation is highly significant in terms of the cultural underpinnings of Western democracy Second it involves a decreased interest in and knowledge of classical philosophy Chapters on secularity family life civic life and public spirit focus on central elements of the changed cultural foundation of democracy exploring issues such as identity politics the public space and the role of human rights and natural law in a pluralistic and resilient democracy The volume concludes with a closer look at the implications of current presentism that is the view that only the present counts for the legitimacy and effectiveness of democratic systems Finally it asks if double secularisation can also offer fresh opportunities for promoting the conditions of a viable democracy The book will be of interest to academics and researchers working in the areas of law and religion constitutional law political science history and philosophy Chapter 4 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

*Polycentric Governance and the Good Society* Pablo Paniagua, David Thunder, 2024-08-22 Polycentric Governance and the Good Society A Normative and Philosophical Investigation offers an examination of the idea of polycentric governance as one of the pillars of a flourishing human society Rather than following the conventional path of suppressing complexity and diversity for the sake of reaching agreement on justice and political stability David Thunder and Pablo Paniagua see complexity and diversity as assets that should be leveraged to make the Open Society a more prosperous resilient and flourishing place to live Polycentric Governance and the Good Society provides valuable food for thought for academics and students looking for a probing cross disciplinary discussion of the ethos and institutions of liberal democracy under conditions of social pluralism Although the volume includes diverse disciplinary lenses such as public choice theory MacIntyrean social theory and constitutional law the driving concern is to exhibit the potential advantages of polycentric approaches to governance and social coordination for constructing a feasible and morally attractive social order This is the first extended academic work to explore in depth the advantages not only from an economic and organizational standpoint but also from a broader ethical sociological and anthropological perspective of polycentric governance arrangements

The Oxford Handbook of Deliberative Democracy André Bächtiger, John S. Dryzek, Jane Mansbridge, Mark E. Warren, 2018-08-30 Deliberative democracy has been one of the main games in contemporary political theory for two decades growing enormously in size and importance in political science and many other disciplines The Oxford Handbook of Deliberative Democracy takes stock of deliberative democracy as a research field in philosophy in various research programmes in the social sciences and law and in political practice around the globe It provides a concise history of deliberative ideals in political thought and discusses their philosophical origins The Handbook locates deliberation in political systems with different spaces publics and venues

including parliaments courts governance networks protests mini publics old and new media and everyday talk It engages with practical applications mapping deliberation as a reform movement and as a device for conflict resolution documenting the practice and study of deliberative democracy around the world and in global governance

**Moral Conversion in Scripture, Self, and Society** Krijn Pansters, Anton ten Klooster, 2024-06-04 Moral Conversion in Scripture Self and Society offers a broad historical theological and philosophical reflection on the phenomenon of moral conversion Examining life changing transformations within trajectories of spiritual and moral growth the contributors to this volume show how individuals move or should move in one way or another away from the pursuit of solipsistic satisfactions through the practice of self awareness and the performance of social attentiveness toward the prioritization of shared values Together they address the difficulty of realizing in selves and societies some sort of definitive moral conversion of final turn toward the truly good Contributors are David Couturier Matthew Dugandzic Erik Eynikel Aaron Gies Patrick Jones Angela Knobel Daniel Lightsey Peter Lovas Giulia Lovison Krijn Pansters Hanna Roose Anton ten Klooster Willem Marie Speelman Mark Therrien Luke Togni Brian Treanor Louke van Wensveen Archibald van Wieringen and Jamie Washam

Eventually, you will enormously discover a supplementary experience and success by spending more cash. yet when? complete you take on that you require to acquire those all needs once having significantly cash? Why dont you try to acquire something basic in the beginning? Thats something that will guide you to understand even more more or less the globe, experience, some places, like history, amusement, and a lot more?
