Carlos Smaniotto Costa, Ina Šuklje Erjavec, Therese Kenna, Michiel de Lange, Konstantinos Ioannidis, Gabriela

Maksymiuk, Martijn de Waal, 2019-03-01 This open access book is about public open spaces about people and about the relationship between them and the role of technology in this relationship It is about different approaches methods empirical studies and concerns about a phenomenon that is increasingly being in the centre of sciences and strategies the penetration of digital technologies in the urban space As the main outcome of the CyberParks Project this book aims at fostering the understanding about the current and future interactions of the nexus people public spaces and technology It addresses a wide range of challenges and multidisciplinary perspectives on emerging phenomena related to the penetration of technology in people's lifestyles affecting therefore the whole society and with this the production and use of public spaces Cyberparks coined the term cyberpark to describe the mediated public space that emerging type of urban spaces where nature and cybertechnologies blend together to generate hybrid experiences and enhance quality of life **The Future of the City** Kheir Al-Kodmany, Mir M. Ali, 2013 Drawing on the experience of several cities from different parts of the world this text provides a global perspective on the urbanization phenomenon and tall building development and examines their underlying logic design drivers contextual relationships and pitfalls *Smart Design* Richard Hu, 2021-11-24 This book tackles the emerging smart urbanism to advance a new way of urban thinking and to explore a new design approach It unravels several urban transformations in dualities economic relationality and centrality technological flattening and polarisation and spatial division and fusion These dualities are interdependent concurrent coexisting and contradictory they are jointly disrupting and reshaping many aspects of contemporary cities and spaces The book draws on a suite of international studies experiences and observations including case studies in Beijing Singapore and Boston to reveal how these processes are impacting urban design development and policy approaches The COVID 19 pandemic has accelerated many changes already in motion and provides an extreme circumstance for reflecting on and imagining urban spaces These analyses thoughts and visions inform an urban imaginary of smart design that incorporates change flexibility collaboration and experimentation which together forge a paradigm of urban thinking This paradigm builds upon the modernist and postmodernist urban design traditions and extends them in new directions responding to and anticipating a changing urban environment The book proposes a smart design manifesto to stimulate thought trigger debate and hopefully influence a new generation of urban thinkers and smart designers It will be of interest to scholars students and practitioners in the fields of urban design planning architecture urban development and urban studies **The Routledge Handbook on Spaces of Urban Politics** Kevin Ward, Andrew E. G. Jonas, Byron Miller, David Wilson, 2018-04-17 The Routledge Handbook on Spaces of Urban Politics provides a comprehensive statement and reference point for urban politics The scope of this handbook's coverage and contributions engages with and reflects upon the most important innovative and recent critical developments to the interdisciplinary field of urban politics drawing upon a range of examples from within and across the Global North and Global South This handbook is organized into nine interrelated sections with an introductory chapter setting out the rationale aims and structure of the Handbook and

short introductory commentaries at the beginning of each part It questions the eliding of urban politics into the politics of the city reconsidering the usefulness of the distinction between old and new urban politics considering issues of class gender race and the ways in which they intersect appear and reappear in matters of urban politics how best to theorize the roles of capital the state and other actors such as social movements in the production of the city and finally issues of doing urban political research The various chapters explore the issues of urban politics of economic development environment and nature in the city governance and planning the politics of labour as well as living spaces The concluding sections of the Handbook examine the politics over alternative visions of cities of the future and provide concluding discussions and reflections particularly on the futures for urban politics in an increasingly global and multidisciplinary context With over forty five contributions from leading international scholars in the field this handbook provides critical reviews and appraisals of current conceptual and theoretical approaches and future developments in urban politics It is a key reference to all researchers and policy makers with an interest in urban politics

The Urban Wisdom of Jane Jacobs Jane Jacobs, Sonia Hirt, Diane L. Zahm, 2012 Here for the first time is a thoroughly interdisciplinary and international examination of Jane Jacobs's legacy Divided into four parts I Jacobs Urban Philosopher II Jacobs Urban Economist III Jacobs Urban Sociologist and IV Jacobs Urban Designer the book evaluates the impact of Jacobs's writings and activism on the city the professions dedicated to city building and more generally on human thought Together the editors and contributors highlight the notion that Jacobs's influence goes beyond planning to philosophy economics sociology and design They set out to answer such questions as What explains Jacobs's lasting appeal and is it justified Where was she right and where was she wrong What were the most important themes she addressed And although Jacobs was best known for her work on cities is it correct to say that she was a much broader thinker a philosopher and that the key to her lasting legacy is precisely her exceptional breadth of thought

Urban Ecological Design Danilo Palazzo, Frederick R. Steiner, 2012-06-22 This trailblazing book outlines an interdisciplinary process model for urban design that has been developed and tested over time Its goal is not to explain how to design a specific city precinct or public space but to describe useful steps to approach the transformation of urban spaces Urban Ecological Design illustrates the different stages in which the process is organized using theories techniques images and case studies In essence it presents a how to method to transform the urban landscape that is thoroughly informed by theory and practice The authors note that urban design is viewed as an interface between different disciplines They describe the field as peacefully overrun invaded and occupied by city planners architects engineers and landscape architects with developers and politicians frequently joining in They suggest that environmental concerns demand the consideration of ecology and sustainability issues in urban design It is after all the urban designer who helps to orchestrate human relationships with other living organisms in the built environment The overall objective of the book is to reinforce the role of the urban designer as an honest broker and promoter of design processes and as an active agent of social creativity in the production of the public realm
