City Of Djinns A Year In Delhi:

City of Djinns William Dalrymple, 2003-03-25 Peeling back the layers of Delhi's centuries old history City of Djinns is an irresistible blend of research and adventure Sparkling with irrepressible wit City of Djinns peels back the layers of Delhi's centuries old history revealing an extraordinary array of characters along the way from eunuchs to descendants of great Moguls With refreshingly open minded curiosity William Dalrymple explores the seven dead cities of Delhi as well as the eighth city today's Delhi Underlying his quest is the legend of the djinns fire formed spirits that are said to assure the city's Phoenix like regeneration no matter how many times it is destroyed Entertaining fascinating and informative City of Djinns is an irresistible blend of research and adventure

City of Djinns William Dalrymple, 2001 Although New Delhi has been invaded and burned many times through the centuries it has always been rebuilt During his stay there Dalrymple found a city full of relics both architectural and human from different periods of history side by side Research description is combined with tales of his travels and encounters with people from various levels of society different religions and numerous traditions 1993

City of Djinns William Dalrymple, 2005 , **Possessing the City** Anish Vanaik, 2020 Possessing the City is a social history of the property market in late colonial Delhi a period of much turbulence and transformation It argues that historians of South Asian cities must connect transformations in urban space with the economy of the city Using new archival material Anish Vanaik outlines the place of private property development in Delhi's economy from 1911 to 1947 Rather than large scale state initiatives like the Delhi Improvement Trust it was profit oriented decentralised and market based initiatives of urban construction that created the Delhi cityscape This volume also serves to chart the emerging relationship between the state and urban space in this period Rather than a narrow focus on urban planning ideas it argues that the relationship be thought of in a triangular fashion the intermediation of the property market was crucial to emerging statecraft and urban form in this period Possessing the City examines struggles and conflicts over the commodification of land particularly disputes over rents and prices of urban property The question of commodification can also however be discerned in struggles that were not ostensibly about economic issues clashes over religious sites in the city Through careful attention to the historical interrelationships between state space and the economy in Delhi this volume offers a novel intervention in the history of late colonial Delhi

Urban Life in Delhi Slums Pauline Dixon, Steve Humble, 2025-08-26 This book investigates urban life in the slums of Delhi demonstrating how individuals and communities self organise to solve problems that arise in their neighbourhoods Around one quarter of the world's urban population live in informal slum and squatter settlements representing a significant economic and cultural force Despite this settlements are often perceived as marginal homogenous places overlooking the resilience and agency of the diverse actors networks and social groups working collectively within them This book draws on extensive qualitative and quantitative data from squatter and resettlement colonies in and around Delhi foregrounding the voices of residents to build a bottom up picture of place and urban development The book analyses

the contexts in which households operate within their communities and the adaptiveness of individuals living in different slum types with differing levels of governance In doing so the book demonstrates the effect which different institutional agreements and governance systems have on enterprise empowerment resilience trust dignity and engaging in life that has purpose and meaning This book's detailed assessment of slum spaces and networks will be of interest to researchers across a range of fields including international development geography urban planning politics and sociology as well as to policy makers and civil society organisations

Accumulation by Segregation Ghazala Jamil, 2017-08-09 This work explores the processes of creation and articulation of social identities of Muslims in Delhi Mapping the landscape of discrimination in Delhi's neighbourhoods Jamil tries to see how such fractured geographies are created We come across people whose sense of belonging to each other is complex and subject to forces such as regional and class identities instead of an ubiquitous Muslimness Segregation in an urban space is produced as Jamil argues not only by communal conflict and threat of violence but also maintained and strengthened by processes of capitalist globalization Through case studies of five localities which present a historical continuity in the narrative of Delhi's Muslims the book presents compelling evidence of market and governance processes that aid accumulation by segregation It offers an against the grain reading of quotidian practices of residents within such boundaries such that a counternarrative of resistance and hope may emerge one that may allow for reimagining alternatives

Postcolonial Urban Outcasts Madhurima Chakraborty, Umme Al-wazedi, 2016-10-14 Extending current scholarship on South Asian Urban and Literary Studies this volume examines the role of the discontents of the South Asian city The collection investigates how South Asian literature and literature about South Asia attends to urban margins regardless of whether the definition of margin is spatial psychological gendered or sociopolitical That cities are a site of profound paradoxes is nowhere clearer than in South Asia where urban areas simultaneously represent both the frontiers of globalization as well as the deeply troubling social and political inequalities of the global south Additionally because South Asian cities are defined by the palimpsestic confluence of among other things colonial oppression anticolonial nationalism postcolonial governance and twenty first century transnational capital they are sites where the many faces of empowerment and disempowerment are elaborated The volume brings together essays that emphasize myriad critical approaches geospatial urban theoretical diasporic subaltern and others United in their critical empathy for urban outcasts the chapters respond to central questions such as What is the relationship between the politico economic narratives of globally emerging South Asian cities and the dispossessed How do South Asian cities stand in relationship to the nation and conversely how might South Asians in diaspora construct these cities within larger narratives of development globalization or as sources of authentic ethnic identities How is the very skeleton the space the territory of South Asian cities marked with and by exclusionary politics How do the aesthetic and formal choices undertaken by writers determine the potential for and limit to emancipation of urban outcasts from their oppressive circumstances Considering fiction nonfiction comics and genre fiction
