Xenophon, Thucydides

City Of Gods Hellenica:

City of Gods - Hellenica Jonathan Maas, 2013-06-15 The gods are back and they are tearing this world apart Zeus Dagon Loki Lugh and countless other deities have come back to this earth and rule over their individual districts with no goal other than satiating their own petty desires The sole remaining functional province Hellenica decides to act They build the Academy and are about to recruit 16 young gods with the hopes of training them to police this world The Horsemen Of these 16 young gods four have strange powers that the Academy might not be able to control Kayana Marx Gunnar Redstone Tommy Alderon and Saoirse Frost aren't like normal gods and their abilities stem from the Monotheistic times But if Hellenica has any hope of holding this world together they will have to teach these four to exercise their powers to their fullest extent even if it might bring everything to an apocalyptic end **Hellenica** Evelyn Abbott, 1898 **The History of the Peloponnesian War & Hellenica** Xenophon, Thucydides, 2023-12-10 Exploring the tumultuous period of Classical Greece The History of the Peloponnesian War Hellenica offers a compelling narrative tapestry woven from the pivotal works of two quintessential historians Xenophon and Thucydides This collection delves into the enduring power struggles and societal upheavals of the Peloponnesian War capturing a spectrum of human experiences ranging from the grand strategies of war to the intimate trials of personal ethos With Thucydides' meticulous and analytical narrative paired alongside Xenophon's more pragmatic and descriptive continuation in Hellenica readers gain a comprehensive understanding of a transitional epoch that helped shape Western political thought The contributors Xenophon and Thucydides were eyewitnesses to the dramatic events they detail thus bringing a rich first-hand authenticity to their accounts Thucydides with his acute critical analysis and emphasis on a factual recount of events set the bar for historical inquiry Meanwhile Xenophon a student of Socrates offers complementary insights colored by his own philosophical leanings and military experiences Together they chronicle a historical period aligning with the burgeoning concepts of democracy imperialism and civic duty inviting readers to explore these ideas through diverse narrative lenses This anthology is an indispensable resource for those keen to grasp the complexities of Classical Greek civilization through the eyes of its most insightful chroniclers By immersing oneself in this collection readers are afforded a panoramic view of the Peloponnesian conflict and subsequent eras enriched by the nuanced perspectives crafted by both historians It is an invitation to historical inquiry and reflection perfect for scholars students and general readers interested in the foundations of Western historical thought and the rich legacy of classical antiquity In this enriched edition we have carefully created added value for your reading experience An Introduction draws the threads together discussing why these diverse authors and texts belong in one collection Historical Context explores the cultural and intellectual currents that shaped these works offering insight into the shared or contrasting eras that influenced each writer A combined Synopsis Selection briefly outlines the key plots or arguments of the included pieces helping readers grasp the anthology's overall scope without giving away essential twists A collective Analysis highlights

common themes stylistic variations and significant crossovers in tone and technique tying together writers from different backgrounds Reflection questions encourage readers to compare the different voices and perspectives within the collection fostering a richer understanding of the overarching conversation

The Works of Xenophon: Hellenica, Books I & II, and Anabasis. 1890 Xenophon, 1890

City of Cats Max Diksztejn, 2016-03-20 It s A D 384 the dawn of the Christian monotheistic state Emperor Theodosius has decreed the Nicene version of Christianity the exclusive religion of the Empire allegiance to any other interpretation of Christianity or any form of paganism is subject to criminal prosecution In this setting Lupicinus powerful advisor to the Pope who lives a duplicitous life as a clandestine non believer and Saturnine the unconverted wife of a Christian senator who secretly writes against the Church are brought together and their lives changed forever by Kharapan a Stoic philosopher from a remote land outside the Empire where the Hellenistic schools of philosophy still thrive This one decisive year shows the soul rending decisions people make when the course of history is against them and highlights the philosophic way of life that once flourished in Western culture before monotheism came to dominate the known world

Christianizing Egypt David Frankfurter, 2024-11-01 How does a culture become Christian especially one that is heir to such ancient traditions and spectacular monuments as Egypt This book offers a new model for envisioning the process of Christianization by looking at the construction of Christianity in the various social and creative worlds active in Egyptian culture during late antiquity As David Frankfurter shows members of these different social and creative worlds came to create different forms of Christianity according to their specific interests their traditional idioms and their sense of what the religion could offer Reintroducing the term syncretism for the inevitable and continuous process by which a religion is acculturated the book addresses the various formations of Egyptian Christianity that developed in the domestic sphere the worlds of holy men and saints shrines the work of craftsmen and artisans the culture of monastic scribes and the reimagination of the landscape itself through processions architecture and the potent remains of the past Drawing on sermons and magical texts saints lives and figurines letters and amulets and comparisons with Christianization elsewhere in the Roman empire and beyond Christianizing Egypt reconceives religious change from the conversion of hearts and minds to the selective incorporation and application of strategies for protection authority and efficacy and for imagining the environment
