Crowd Scenes Movies And Mass Politics:

Crowd Scenes Michael Tratner, 2008 The movies and the masses erupted on the world stage together In a few decades around the turn of the twentieth century millions of persons who rarely could afford a night at the theater and had never voted in an election became regular paying customers at movie palaces and proud members of new political parties The question of how to represent these new masses fascinated and plagued politicians and filmmakers alike Michael Tratner examines the representations of masses the crowd scenes in Hollywood films from *The Birth of a Nation* through such popular love stories as *Gone with the Wind* *The Sound of Music* and *Dr Zhivago* He then contrasts these with similar scenes in early Soviet and Nazi films What emerges is a political debate being carried out in filmic style In both sets of films the crowd is represented as a seething cauldron of emotions

The Politics of Crowds Christian Borch, 2012-04-12 When sociology emerged as a discipline in the late nineteenth century the problem of crowds constituted one of its key concerns It was argued that crowds shook the foundations of society and led individuals into all sorts of irrational behaviour Yet crowds were not just something to be fought in the street they also formed a battleground over how sociology should be demarcated from related disciplines most notably psychology In *The Politics of Crowds* Christian Borch traces sociological debates on crowds and masses from the birth of sociology until today with a particular focus on the developments in France Germany and the USA The book is a refreshing alternative history of sociology and modern society observed through society's other the crowd Borch shows that the problem of crowds is not just of historical interest even today the politics of sociology is intertwined with the politics of crowds

Digital Participatory Culture and the TV Audience Sandra M. Falero, 2016-07-18 In this study Falero explores how online communities of participatory audiences have helped to re define authorship and audience in the digital age Using over a decade of ethnographic research *Digital Participatory Culture and the TV Audience* explores the rise and fall of a site that some heralded as ground zero for the democratization of television criticism *Television Without Pity* was a web community devoted to criticizing television programs Their mission was to hold television networks and writers accountable by critiquing their work and not just passively sitting around watching When executive producer Aaron Sorkin entered *Television Without Pity*'s message boards

on *The West Wing* in late 2001 he was surprised to find the discussion populated by critics rather than fans His anger over the criticism he found there wound up becoming a storyline in a subsequent episode of *The West Wing* wherein web critics were described as obese shut ins who lounge around in muumuus and chain smoke Parliaments This book examines the culture at Television Without Pity and will appeal to students and researchers interested in audiences digital culture and television studies

The Oxford Handbook of Chinese Cinemas Carlos Rojas, Eileen Chow, 2013-04-25 What does it mean for a cinematic work to be Chinese Does it refer specifically to a work's subject or does it also reflect considerations of language ethnicity nationality ideology or political orientation Such questions make any single approach to a vast field like Chinese cinema difficult at best Accordingly *The Oxford Handbook of Chinese Cinemas* situates the term more broadly among various different phases genres and distinct national configurations while taking care to address the consequences of grouping together so many disparate histories under a single banner Offering both a platform for cross disciplinary dialogue and a mapping of Chinese cinema as an expanded field this Handbook presents thirty three essays by leading researchers and scholars intent on yielding new insights and new analyses using three different methodologies Chapters in Part I investigate the historical periodizations of the field through changing notions of national and political identity all the way from the industry's beginnings in the 1920s up to its current forms in contemporary Hong Kong Taiwan and the global diaspora Chapters in Part II feature studies centered on the field's taxonomical formalities including such topics as the role of the Chinese opera in technological innovation the political logic of the Maoist film and the psychoanalytic formula of the kung fu action film Finally in Part III focus is given to the structural elements that comprise a work's production distribution and reception to reveal the broader cinematic apparatuses within which these works are positioned Taken together the multipronged approach supports a wider platform beyond the geopolitical and linguistic limitations in existing scholarship Expertly edited to illustrate a representative set of up to date topics and approaches *The Oxford Handbook of Chinese Cinemas* provides a vital addition to a burgeoning field still in its formative stages

Faulkner and Film Peter Lurie, Ann J. Abadie, 2014-09-18 Considering that he worked a stint as a screenwriter it will come as little surprise that Faulkner has often been called the most cinematic of novelists Faulkner's novels were produced in the same high period as the films of classic Hollywood a reason itself for considering his work alongside this dominant form Beyond their era though Faulkner's novels or the ways in which they ask readers to see as well as feel his world have much in common with film That Faulkner was aware of film and that his novels own thinking betrays his profound sense of the medium and its effects broadens the contexts in which he can be considered In a range of approaches the contributors consider Faulkner's career as a scenarist and collaborator in Hollywood the ways his screenplay work and the adaptations of his fiction informed his literary writing and how Faulkner's craft anticipates intersects with or reflects upon changes in cultural history across the lifespan of cinema Drawing on film history critical theory archival studies of Faulkner's screenplays and scholarship about his work in

Joyce, Imperialism, and Postcolonialism Leonard Orr, 2022-09-01 On the surface James Joyce's work is largely apolitical Through most of the twentieth century he was the proud embodiment of the rootless intellectual However perspectives on the colonial history of Ireland have proliferated in recent years yielding a subtle and complex conception of the Irish postcolonial experience that has become a major theme in current Joyce scholarship In this volume Leonard Orr brings together a diverse collection of essays situating Joyce in the debates generated by postcolonial theory and discourse Highly original and often provocative these essays bring Joyce powerfully within the ambit of postcolonial studies

The Routledge Companion to Literature and Economics Matt Seybold, Michelle Chihara, 2018-09-17 The study of literature and economics is by no means a new one but since the financial crash of 2008 the field has grown considerably with a broad range of both fiction and criticism The Routledge Companion to Literature and Economics is the first authoritative guide tying together the seemingly disparate areas of literature and economics Drawing together 38 critics the Companion offers both an introduction and a springboard to this sometimes complex but highly relevant field With sections on Critical traditions Histories Principles and Contemporary culture the book looks at examples from Medieval and Renaissance literature through to poetry of the Great
