modern notion of religious tolerance in order to rethink how we should respond to its contemporary tensions In a wide ranging argument that spans the Ottoman Empire the Venetian republic and recent controversies such as France s burqa ban and the white supremacist rally in Charlottesville *The Limits of Tolerance* probes crucial questions Should we impose limits on freedom of expression in the name of human dignity or decency Should we accept religious symbols in the public square Can we tolerate the intolerant While acknowledging that tolerance can never be entirely without limits Lacorne defends the Enlightenment concept against recent attempts to circumscribe it arguing that without it a pluralistic society cannot survive Awarded the Prix Montyon by the Acad mie Fran aise *The Limits of Tolerance* is a powerful reflection on twenty first century democracy s most fundamental challenges *Global Jihadist Terrorism* Paul Burke, Doaa' Elnakhala, Seumas Miller, 2021-04-30 This insightful book provides a unified repository of information on jihadist terrorism Offering an integrated treatment of terrorist groups zones of armed conflict and counter terrorism responses from liberal democratic states it presents fresh empirical perspectives on the origins and progression of conflict and contemporary global measures to combat terrorist activity *Individual Criminal Responsibility for the Financing of Entities involved in Core Crimes* Laura Ausserladscheider Jonas, 2021-12-28 War crimes crimes against humanity genocide and the crime of aggression so called core crimes often could not be committed without financial assistance This book examines the basis for individual criminal liability under international law for persons who finance core crimes Despite the need for clear rules neither international courts nor scholars agree upon whether or not or under what circumstances such liability exists To determine the minimum standard of liability this work analyses the legal rules relating to complicity both under international criminal law and domestically in twenty selected jurisdictions in Africa Asia Europe Latin America North America and Oceania The aim of these analyses is to determine whether there are general principles of law recognised by the community of States regarding the minimum standard of liability for aiders and abettors This book proposes a comparative framework for assessing legal rules relating to complicity and it advances a normative claim as to how legal rules should be structured concerning the criminal responsibility of individuals who finance the commission of core crimes The analysis of the applicable international law and the comparative analysis of national jurisdictions lead to the conclusion that currently the minimum standard of knowledge for aiding and abetting is active knowledge However the author argues that this standard should be revised to include wilful blindness Regarding the intent requirement the analyses find that *dolus eventualis* is included in the definition of intent *California Penal Code and Evidence Code 2014 Book 1 of 2* John Snape, 2014-02-26 This is the California Penal Code for 2014 It also includes the Evidence Code The entire set of laws are included and is current up until January 1 2014 This is book 1 of 2 Book 2 is also available We ve tried to make these books as economical for the reader as possible We re fed up with overly expensive legal books and we ve heard from many who are too *Revised Civil Statutes, Penal Code & Code of Criminal Procedure of the State of Texas* Texas, 1926
