Decolonizing Middle Level Literacy Instruction Michael Domínguez, Robyn Seglem, 2023-06-30. This text offers pre-service and in-service teachers pragmatic strategies for teaching middle grades literacy in culturally proactive and sustaining ways. By demystifying big ideas and complex concepts, Domínguez and Seglem provide clear pathways and lessons for illuminating and engaging with race, ethnicity, culture, and identity in the middle grade English Language Arts classroom. While addressing social justice, equity, diversity, and liberation can seem intimidating or unrelated to classroom practice, the authors demonstrate how weaving such questions into instruction benefits students' development. The guidance, strategies, and lessons in this book provide an answer to the question: What does decolonial literacy teaching look like? Concrete but not prescriptive, the authors encourage us to reconsider accepted logics of schooling so that we can better support adolescents as they navigate complex identity landscapes. Bringing together disparate conversations around reading, writing, identity, and decolonial thinking and specifically tailored to the middle grades, this book serves as a comprehensive toolkit for praxis and covers such topics as cultural change, community connections, and racial literacy. Each chapter features tips on reading and writing instruction, Teacher Spotlights, Planning Questions, and Additional Resources to make it easy for educators to apply the strategies to their own contexts. An accessible entry to addressing challenging questions around identity in the classroom, this book is essential reading in courses and professional development on ELA and literacy methods as well as teaching culturally and linguistically diverse students. For teachers looking to push toward equity and reshape literacy education so that it serves all middle grade students, Domínguez and Seglem offer plenty of accessible and motivating places to start.

Written for pre-service and in-service teachers, this book includes easy-to-use lesson plans, pedagogical strategies, and activities as well as a wealth of resources carefully designed to optimize student comprehension of language variation.

Making Language Matter Deborah J. Vause, Julie S. Amberg, 2013. Now adopted by over 40 states, the Common Core State Standards provide a clear and consistent framework for public school systems as they develop student learning goals that define the path to readiness for college careers and informed citizenship. While each state is developing its own procedures for adoption of the Standards, individual teachers will continue to hold the ultimate responsibility for devising lesson plans and tailoring instruction to meet these benchmarks.

Making Language Matter will help prospective and practicing teachers develop lessons to meet the benchmarks enumerated in the Standards for the English Language Arts categories language speaking and listening writing and reading A timely text for literacy education courses it explores language topics within these categories and suggests pedagogical approaches and activities for use in 9 12 language arts classrooms Using a linguistics approach to unify the study of all the language arts it engages readers in learning how to help students make purposeful language choices essential for both academic and workplace success

Language Awareness in Multilingual Classrooms in Europe Christine Hélot, Carolien Frijns, Koen Gorp, Sven Sierens, 2018-04-23 Within the scope of today's globalisation linguistic diversity is a given fact of the world we live in In several educational contexts in Europe language awareness LA activities have been introduced with the objective to prepare pupils cognitively socially and or critically for life as multilingual open minded and or empowered citizens in a diverse world Despite previous research in various contexts the concept of LA remains problematic a generally accepted evidence based conceptualisation is missing This confronts both research and education with a challenge in order to develop LA activities implement them successfully in educational contexts and achieve the expected outcomes we should know what the concept stands for how it works and why we would choose to implement it in classrooms or not This volume focuses on three apparent simple questions what how and why The first question what refers to the conceptual mess of LA The second question how refers to the implementation of LA activities in several educational contexts The third question why is a recurrent theme running through all the chapters and deals with a reflection on the way we deal unconsciously with LA activities in education
