Trade and Competition Law in the Eu and Beyond Inge Govaere, Reinhard Quick, Marco Bronckers, 2011-10-01 This well documented book comprises a stellar cast of European and American authors delivering an overview of cutting edge issues in the areas of trade and competition law arising in the EU and beyond Written from an international perspective hotly debated topics include challenges in international monetary law the EU and free trade treaty interpretation WTO dispute settlement the domestic law effect of the WTO in the EU and public and private enforcement of competition law amongst many others Set out to become a key work of reference for many legal practitioners policy makers and academics alike across the globe Trade and Competition Law in the EU and Beyond uniquely tackles the two very different yet related topics of trade and competition law

Trade and Competitiveness Global Practice Anabel Gonzalez, For the past three decades economic growth with strong contributions from the private sector has been the main driver of poverty reduction around the world The

experience of China Vietnam and other high growth countries dramatically demonstrates how integration with global markets and enhanced competitiveness can develop dynamic and resilient economies These economies improve the earnings of the less well off by creating more better paying jobs They also converge with advanced economies by achieving productivity gains Achieving the World Bank Group s Twin Goals of ending extreme poverty and boosting shared prosperity requires unprecedented efforts by developing countries to unleash private sector led growth and job creation Governments and the private sector around the world are actively seeking more effective ways of boosting the volume and value of trade enhancing the investment climate improving competitiveness in sectors and fostering innovation and entrepreneurship all elements of successful growth strategies The establishment of the Trade and Competitiveness Global Practice signals the World Bank Group s commitment to systematically strengthen its engagement on these issues

Climate Change Trade Measures: Estimating Industry Effects Loren Yager, 2010-02 Countries can take varying approaches to reducing greenhouse gas emissions Since energy use is a significant source of greenhouse gas emissions policies designed to increase energy efficiency or induce a switch to less greenhouse gas intensive fuels such as from coal to natural gas can reduce emissions in the short term In the long term however major technology changes will be needed to establish a less carbon intensive energy infrastructure To that end a U S policy to mitigate climate change may require facilities to achieve specified reductions or employ a market based mechanism such as establishing a price on emissions Charts and tables
