Catalog of Sears, Roebuck and Company Sears, Roebuck and Company, 1964

The Fisher Body Craftsman's Guild

John L. Jacobus, 2015-05-07 The Fisher Body Craftsman's Guild was a national auto design competition sponsored by the Fisher Body Division of General Motors. This competition was for teenagers to compete for college scholarships by designing and building scale model dream cars. Held from the 1930s through the 1960s, it helped identify and nurture a whole generation of designers and design executives. Virgil M. Exner Jr., Charles M. Jordan, Robert W. Henderson, Robert A. Cadaret, Richard Arbib, Elia Russ, Russinoff, Galen Wickersham, Ronald C. Hill, Edward F. Taylor, George R. Chartier, Charles W. Pelly, Gary Graham, Charles A. Gibilterra, E. Arthur Russell, William A. Moore, Terry R. Henline, Paul Tatseos, Allen T. Weideman, Kenneth J. Dowd, Stuart Shuster, John M. Mellberg, Harry E. Schoepf, and Ronald J. Will are among those designers and design executives who participated in the Guild. The book also describes many aspects of the miniature model Napoleonic Coach and other scale model cars the students designed.

Atomic Narratives and American

Youth Michael Scheibach, 2015-09-17 Following the atomic bombings of Hiroshima and Nagasaki, numerous atomic narratives in books, newspapers, magazines, textbooks, movies, and television programs addressed the implications of the bomb. Post-World War II youth encountered atomic narratives in their daily lives at school, at home, and in their communities, and were profoundly affected by what they read and saw. This multidisciplinary study examines the exposure of American youth to atomic narratives during the ten years following World War II. In addition, it examines the broader social narrative of the atom, which included educational, social, cultural, and political activities that surrounded and involved American youth. The activities ranged from school and community programs to movies and television shows to government-sponsored traveling exhibits on atomic energy. The book also presents numerous examples of writings by postwar adolescents who clearly expressed their conflicted feelings about growing up in such a tumultuous time and shows how many of the issues commonly associated with the sixties generation, such as peace, fellowship, free expression, and environmental concern, can be traced to this earlier generation.

Handbook of Child and Adolescent Group Therapy Craig Haen, Seth Aronson, 2016-10-14 This handbook describes in detail different contemporary approaches to group work with children and adolescents. Further, this volume illustrates the application of these models to work with the youth of today, whether victims of trauma, adolescents struggling with LGBT issues, or youth with varying common diagnoses such as autism spectrum disorders, depression, and anxiety. It offers chapters presenting a variety of clinical approaches written by experts in these approaches, from classic play therapy and dialectical behavior therapy to cutting-edge attachment-based intervention, mindfulness, and sensorimotor psychotherapy.

Because of its broad scope the book is suitable for a wide audience from students to first time group leaders to seasoned practitioners Organizing Library Collections Gretchen L. Hoffman, 2019-08-05 Libraries organize their collections to help library users find what they need Organizing library collections may seem like a straightforward and streamlined process but it can be quite complex and there is a large body of theory and practice that shape and support this work Learning about the organization of library collections can be challenging Libraries have a long history of organizing their collections there are many principles models standards and tools used to organize collections and theory and practice are changing constantly Written for beginning library science students Organizing Library Collections Theory and Practice introduces the theory and practice of organizing library collections in a clear straightforward and understandable way It explains why and how libraries organize their collections and how theory and practice work together to help library users It introduces basic cataloging and metadata theory describes and evaluates the major cataloging and metadata standards and tools used to organize library collections and explains in general how all libraries organize their collections in practice Yet this book not only introduces theory and practice in general it introduces students to a wide range of topics involved in organizing library collections This book explores how academic public school and special libraries typically organize their collections and why It also discusses standardization and explains how cataloging and metadata standards and policies are developed Ethical issues also are explored and ethical decision making is addressed In addition several discussion questions and class activities reinforce concepts introduced in each chapter Students should walk away from this book understanding why and how libraries organize their collections Mergent Municipal & Government Manual ,2004 **The Investor's Monthly Manual** ,1920
