Challenging Neighbours Rethinking German Und Dutch Economic Institutions:

Challenging Neighbours CPB Netherlands Bureau for Economic Policy Analysis, 2012-12-06 *Challenging Neighbours* provides wide coverage of the German and Dutch economies from an institutional point of view Pensions competition policy labour relations corporate governance and health care are among the topics for which the institutional setting and performance of Germany and the Netherlands are compared The difficulties and successes the countries have in facing pressures from aging population developments in technology and global competition are traced back to their institutional roots and lead to mutual lessons for institutional reform for German and Dutch policy makers Macroeconomic Causes of Unemployment: Diagnosis and Policy Recommendations / Wolfgang Filc, Claus Köhler, 2015-03-03 This conference volume deals with one of the most severe economic social and political problems major European economies face since the early nineties the problem of lasting high unemployment Contrary to the current German discussion solely concentrating on microeconomic explanations and therapy recommendations this volume presents papers based on various macro economic points of view showing different ways out of the employment crisis Apart from renowned German economists some well known international academics participated in the 1998 Berlin symposium to learn from experience in other countries The first chapter contains the main standard textbook models and paradigms explaining lasting high unemployment The question in the second chapter is if it is possible to fight unemployment with the help of macro policy on a purely national basis in the presence of global markets The third chapter indicates possible effects of misalignments in financial markets on economic growth and employment The contributions of the fourth chapter present experiences of other countries which have succeeded in recent years in lowering their unemployment rates The question at issue is if these concepts can be transferred to Germany The topics of the concluding chapter are practical macroeconomic starting points for sustainable employment growth in Europe The methods contradict supply side arguments for the stabilisation of employment predominant in the German discussion Attention is focused on relations between the role of monetary and fiscal policy in close conjunction with wage policy Furthermore it is made evident that in global markets a theoretical macroeconomic concept as a base for sustainable employment is not very promising without enhanced international co operation Inhaltsverzeichnis Inhalt W Franz Macroeconomics and Joblessness An Introductory Statement R Richter Warum Arbeitslosigkeit Antworten von Wirtschaftstheoretikern seit Keynes 1936 J Priewe Klassische und keynesianische Arbeitslosigkeit eine Kritik hybrider Typologien H J Heinemann Nationale Besch ftigungspolitik bei globalisierten M rkten P Davidson Global Macro Policies for Reducing Persistent High Unemployment Rates in OECD Countries H Klodt International Direct Investment Export of Headquarter Services or Export of Jobs A Juchems W Leibfritz Monetary Conditions and Fiscal Policy A Comparison over Various Business Cycles and Different Phases of the Business Cycle P Winker Financing Constraints Output and Employment Lessons from Theory and Empirical Evidence on the Micro and Macro Level M Fr mmel L Menkhoff The Informational

The Nebi Yearbook 1998 P. Joenniemi, Lars Hedegaard, A. Östhol, Bjarne Lindström, K. Peschel, C.-E. Stalvant, 2012-12-06 Thorvald Stoltenberg Ambassador Chairman of the Editorial Advisory Board Most of us have been overwhelmed by the speed and extent of the changes that have been taking place in Europe since the late 1980s Over the span of a few years we have witnessed the collapse of the Soviet Union and the unification of Germany This process has had far reaching implications for Northern Europe the Baltic states have attained independence and with the establishment of the Baltic Sea regional co operation and the Barents co operation a new type of East West relations has come into being The process of change continues Its latest manifestation is the agreement between Russia and NATO and NATO and EU enlargement is expected to take place over the next few years With such far reaching transformations we need to reflect on what is happening We need a more coherent picture of the new situation in Northern Europe and of where we are heading This Yearbook is an attempt to fulfil this need I would like to thank the editors for taking this initiative which has been long awaited by those of us who have been actively interested in the improved relations between the former East and the old West that have been made possible by the end of the Cold War and particularly in the new opportunities for cross border co operation and integration in the North European and Baltic space

Culture and Consensus in European Varieties of Capitalism I. Bruff, 2008-09-11 Using two milestones in the Dutch and German political economies Wassenaar and Alliance for Jobs respectively this book argues that Antonio Gramsci's common sense provides us with the conceptual apparatus necessary for analysing the integral role played by culture and consensus in the trajectories of national capitalisms in Europe

Forestry and the New Institutional Economics Sen Wang, G. Cornelis van Kooten, 2018-02-06 This title was first published in 2001 Using a case study from British Columbia this book addresses the economies of institutions institutional change and transactions costs and develops the theory of the New Institutional Economics in the context of forestry institutions This approach to economic analysis of forestry investment problems will emphasize the understanding of the

linkages between the biological as well as institutional attributes of forestry activities Germany's Technological Performance H. Legler, G. Licht, A. Spielkamp, 2012-12-06 Maintaining the innovation capabilities of firms employees and institutions is a key component for the generation of sustainable growth employment and high income in industrial societies Gaining insights into the German innovation system and the institutional framework is as important to policy making as is data on the endowment of the German economy with factors fostering innovation and their recent development Germany's Federal Ministry of Education and Research has repeatedly commissioned reports on the competitive strength of the German innovation system since the mid eighties The considerable attention that the public and the political administrative and economic actors have paid to these reports in the past few years proves the strong interest in the assessment of and indicators for the dynamics behind innovation activities The present study closely follows the pattern of those carried out before It has been extended however to include an extensive discussion on indicators for technological performance and an outline of the key features of the German innovation system *Receptive Multilingualism as a Language Mode in the Dutch-German Border Area* Roos Beerkens, *Restoring Public Debt Sustainability* George Kopits, 2013-10-17 Restoring Public Debt Sustainability The Role of Independent Fiscal Institutions represents the first comprehensive survey of a new generation of independent fiscal institutions established to promote transparency in public finances through real time monitoring of the soundness of budgetary policymaking The chapters authored by heads of the institutions as well as distinguished policy analysts and academics explore the rationale and experience of these fiscal watchdogs Consequently useful lessons and implications are drawn for the design and practical operation of such institutions The timeliness of the volume is underscored by the potential role of fiscal watchdogs in containing the public debt crisis that has engulfed a number of countries Indeed the recent proliferation of these institutions has been in response to the need for enhancing policy credibility of highly indebted governments in financial markets and more generally for strengthening the quality of economic governance The first part of the book deals with key analytical and institutional issues the political environment the scope and limits of these institutions the delegation of monetary policymaking to an independent body and the implications of rising public indebtedness The second part contains case studies of institutions that for the most part were born as a result of domestic political developments The third part presents the experience of institutions whose origins can be traced directly or indirectly to an earlier or a recent financial crisis The chapters are written from a multidisciplinary economic financial political legal perspective intended for academics researchers and practitioners alike Environmental Co-operation and Institutional Change Konrad Hagedorn, 2002-01-01 The book is well written and makes a significant contribution to the development of the principles and practices of dealing with agri environmental problems It is of relevance to a wide circle of readers including researchers and politicians but also students and others concerned with agri environmental issues Stefanie Engel and Ulrike Grote Quarterly Journal of International Agriculture the book has the potential to provide something for

everyone Stefan B ckmann European Review of Agricultural Economics Although the history of the Common Agricultural Policy CAP is dominated by a process of centralisation growing pressures to integrate agri environmental problems into the CAP have revealed the need to embrace decentralised approaches in an efficient federal structure Indeed in recent years it has become increasingly evident that the agricultural sector must undergo fundamental changes in order to enter an era of sustainable development

The Politics of Scientific Advice Justus Lentsch, Peter Weingart, 2011-06-02 Controversies over issues such as genetically engineered food foot and mouth disease and the failure of risk models in the global financial crisis have raised concerns about the quality of expert scientific advice The legitimacy of experts and of the political decision makers and policy makers whom they advise essentially depends on the quality of the advice But what does quality mean in this context and how can it be achieved This volume argues that the quality of scientific advice can be ensured by an appropriate institutional design of advisory organisations Using examples from a wide range of international case studies including think tanks governmental research institutes agencies and academies the authors provide a systematic guide to the major problems and pitfalls encountered in scientific advice and the means by which organisations around the world have solved these problems
