Darth Vader Helmet:

Sartorial Fandom Elizabeth Affuso, Suzanne Scott, 2023-04-03 In recent years geeks have become chic and the fashion and beauty industries have responded to this trend with a plethora of fashion forward merchandise aimed at the increasingly lucrative fan demographic This mainstreaming of fan identity is reflected in the glut of pop culture T shirts lining the aisles of big box retailers as well as the proliferation of fan focused lifestyle brands and digital retailers over the past decade While fashion and beauty have long been integrated into the media industry with tie in lines franchise products and other forms of merchandise there has been limited study of fans relationship to these items and industries Sartorial Fandom shines a spotlight on the fashion and beauty cultures that undergird fandoms considering the retailers branded products and fan made objects that serve as forms of identity expression This collection is invested in the subcultural and mainstream expression of style and in the spaces where the two intersect Fan culture is in many respects an optimal space to situate a study of style because fandom itself is often situated between the subcultural and the mainstream Collectively the chapters in this anthology explore how various axes of lived identity interact with a growing movement to consider fandom as a lifestyle category ultimately contending that sartorial practices are central to fan expression but also indicative of the primacy of fandom in contemporary taste cultures

Jung and the Crisis in Western Civilization** John A Cahman,2020-01-10

The partisan split in American politics is the result of a major transformation of the West as the psychology of the past based on hierarchy and privilege is being replaced by a psychology of equality The status of women and minorities is at the center of this The West s long history of inequality is gradually changing When women s equality is considered symbolically it represents the feminine rising to parity with the masculine a status it has not held since prehistory Minority groups have carried the projected shadow of the White majority for centuries that is gradually ending Integration of the feminine and the shadow are core concepts of C G Jung s psychology of individuation The emerging equality of women and minorities indicates that our group psychology is entering a period of individuation This is a huge change at least as profound as pagan Rome becoming Christian or medieval Europe transitioning into the modern West The turmoil of our time is because of the great historical change as we leave what has been the modern West The turmoil is the widespread appearance of the same conflicts that Jung saw in his patients a century ago The same answer still applies the path Jung realized at the time individuation and it is already beginning to shape our future In this book author John Cahman traces the history of Western Civilization as a developmental process and shows how our time marks a great turning point in that story as we leave an age of sexism racism and hierarchy and enter one of individuation
