radically new and challenging theatricality whose cornerstone is their ceremonial shape The plays underlying panic ceremony is thoroughly studied in light of Arrabal's programmatic text *Le Panique* that singles out three key concepts responsible for artistic creation memory chance and confusion This study shows how memory determines the plays departure from mimesis and how chance articulates the materials recalled from memory into precisely arranged plots Furthermore subjects objects spatial temporal frames and words are subject to confusion in an attempt to create an utterly innovative form of theatre This group of seemingly heterogeneous plays is given theoretical coherence and consistency by placing the idea of panic at the centre of a great formal experimentation Diego Santos Sánchez is an Alexander von Humboldt Fellow at Humboldt University in Berlin
