Verkehr: Zweiter Band, Zweite Hälfte: Die Entwicklung Des Verkehrssystems Dr. Rer. Pol. Habil. Dr. Jur. Fritz Voigt, The Age of the Reformation Preserved Smith, 1920 *The Fuggers of Augsburg* Mark Häberlein, 2012-03-19 As the wealthiest German merchant family of the sixteenth century the Fuggers have attracted wide scholarly attention In contrast to the other famous merchant family of the period the Medici of Florence however no English language work on them has been available until now The Fuggers of Augsburg offers a concise and engaging overview that builds on the latest scholarly literature and the author's own work on sixteenth century merchant capitalism Mark H berlein traces the history of the family from the weaver Hans Fugger's immigration to the imperial city of Augsburg in 1367 to the end of the Thirty Years War in 1648 Because the Fuggers extensive business activities involved long distance trade mining state finance and overseas ventures the family exemplifies the meanings of globalization at the beginning of the modern age The book also covers the political social and cultural roles of the Fuggers their patronage of Renaissance artists the founding of the largest social housing project of its time their support of Catholicism in a city that largely turned Protestant during the Reformation and their rise from urban merchants to imperial counts and feudal lords H berlein argues that the Fuggers organized their social rise in a way that allowed them to be merchants and feudal landholders burghers and noblemen at the same time Their story therefore provides a window on social mobility cultural patronage religion and values during the Renaissance and the Reformation

The Sounds and Sights of Performance in Early Music Maureen Epp, 2017-07-05 The experience of music performance is always far more than the sum of its sounds and evidence for playing and singing techniques is not only inscribed in music notation but can also be found in many other types of primary source materials This volume of essays presents a cross section of new research on performance issues in music of the Middle Ages and Renaissance The subject is approached from a broad perspective drawing on areas such as dance history art history music iconography and performance traditions from beyond Western Europe In doing so the volume continues some of the many lines of inquiry pursued by its dedicatee Timothy J McGee over a lifetime of scholarship devoted to practical questions of playing and singing early music Expanding the bases of inquiry to include various social political historical or aesthetic backgrounds both broadens our knowledge of the issues pertinent to early music performance and informs our understanding of other cultural activities within which music played an important role The book is divided into two parts Viewing the Evidence in which visually based information is used to address particular questions of music performance and Reconsidering Contexts in which diplomatic commercial and cultural connections to specific repertoires or compositions are

considered in detail This book will be of value not only to specialists in early music but to all scholars of the Middle Ages and Renaissance whose interests intersect with the visual aural and social aspects of music performance THE AGE OF THE REFORMATION PRESERVED SMITH .
