Das Unheimliche Sigmund Freud:

The Uncanny Sigmund Freud, 2024-05-09 A modern rendering of Sigmund Freud's 1919 essay *The Uncanny* *Das Unheimliche* a profound exploration of the eerie and unsettling sensations that arise when the familiar becomes strange In this work Freud delves into the psychological mechanisms behind the uncanny examining how repressed childhood fears desires and memories resurface in adulthood to create feelings of unease and dread Freud begins by analyzing the linguistic and etymological roots of the term *unheimlich* uncanny which literally means unhomely or unfamiliar He argues that the uncanny arises when something that was once familiar and comforting such as a childhood memory or a repressed desire reappears in an unfamiliar or distorted form This blurring of the boundary between reality and fantasy the known and the unknown triggers a sense of disorientation and fear Freud explores various examples of the uncanny including dreams, double images and supernatural experiences as well as their representation in literature and art He pays particular attention to E T A Hoffmann's short story *The Sandman* which features a terrifying figure who steals children's eyes Freud interprets this tale as an expression of castration anxiety and the fear of losing one's sight linking it to deeper unconscious conflicts This essay is notable for its innovative application of psychoanalytic theory to the study of aesthetics and literature as well as its exploration of the psychological roots of fear and fascination Freud's analysis of the uncanny has had a lasting impact on fields such as literary criticism film studies and cultural theory influencing thinkers such as Jacques Lacan Julia Kristeva and Hélène Cixous This fresh modern translation from the original German manuscript breathes new life into this historically significant work Freud's extensive writings have often been inaccessible to the general reader and this edition seeks to bridge that gap by providing direct access to his original ideas The Reader's Edition introduces Freud's work in context with an illuminating Afterword that explains his philosophical project situates it within the Modernist milieu and explores its enduring impact on contemporary thought The Afterword also examines the relationship and intellectual conflict between Freud and Carl Jung particularly their differing views on the interpretation of art and symbolism While Freud emphasized the role of repressed desires and childhood experiences Jung focused on the collective unconscious and archetypal symbols Accompanied by a timeline of Freud's life and works an index of philosophical terminology and a short biography this edition is an indispensable resource for students scholars and anyone interested in the intersection of psychoanalysis literature and culture The inclusion of supplemental materials such as illustrations and a glossary of Freudian psychological terms enhances the reader's understanding of this complex and historically important work Whether you are a seasoned scholar or a curious newcomer this volume offers a comprehensive and accessible introduction to Freud's groundbreaking theories on the uncanny and their enduring relevance to the study of human psychology

Magical Realism Lois Parkinson Zamora, Wendy B. Faris, 1995 On magical realism in literature

The Strange M. Proust Andre Benhaim, 2017-07-05 *The strange M Proust* the narrator the author and the embodiment of *A la Recherche du Temps perdu* is now so canonical a

writer that his very strangeness is easily overlooked His book made of other books his epic composed of extraordinary miniatures his orderly structure where every law is subverted his chronology where time can be undone and his geography where places can superimpose in these and many other ways Proust continues to astonish even readers who have engaged with him for their entire careers In this book arising from the Princeton symposium of 2006 major critics come together to offer provocative readings of a work which is at the same time classical and unusual French and foreign familiar and strange The book is dedicated to the memory of Malcolm Bowie 1943 2007 whose keynote address was one of his last major lectures Other contributors include David Ellison Anne Simon Eugene Nicole Joseph Brami Raymonde Coudert Christie McDonald Michael Wood and Antoine Compagnon

Exile and Otherness Alexander Stephan, 2005 In recent years Culture Studies Anthropology German Studies History Political Psychology and other fields have used the concept of exile in close connection with terms like migration border crossing identity and transnationality Views of a homogeneous culture and of centrality collide with ideas like multiculturalism pluralism creolization and the globalization of differences A transit culture inhabited by the flaneur and the nomad is supposed to have replaced citizenship in a nation At the same time there can be no doubt that the experience of those writers artists and intellectuals who were driven out of Germany and Europe by the Nazis was in many ways unique This book investigates the exile experience in a theoretical and comparative way by exploring the possibilities and limitations of concepts like diaspora de localization and transit culture for understanding the lives and works of German and Austrian refugees from Nazi persecution It revisits the interaction of the exiles with the culture of their host countries in light of recent debates about migration and identity studies and it analyzes texts paintings and other methods of artistic expression which connect the experience of the refugees of 1933 with postmodern notions of de localization hybridity and marginalization

Analysis of E.T.A. Hoffmann's story "Der Sandmann" Angelika Zahn, 2022-01-27 Seminar paper from the year 2005 in the subject German Studies Modern German Literature grade 1.0 University of Regensburg language English abstract The story The Sandman by E.T.A. Hoffmann appeared in 1816 in the first part of the story cycle *Nachstücke* Throughout the cycle the typical Romantic interest in the night side of nature in the uncanny the morbid and the criminal prevails The Sandman is the most famous story in the collection It is about the student Nathanael who already engaged to the bourgeois girl Clara falls in love with the daughter of a professor the beautiful Olympia at his place of study until it turns out that she is not human but an automaton This deception and also the repeated confrontation with the horror of his childhood the Sandman threatens his identity to such an extent that it drives him to madness and finally to death Probably the best known analysis of the Sandman was written by Sigmund Freud in 1919 in his study of the uncanny and here he relates the fear of eye snatching to the fear of castration The discussion that grew out of this makes Hoffmann's first night play one of his most discussed narratives which has been taken up again and again by many interpreters of different scientific theoretical orientations This essay by Freud as well as various other interpretive approaches will now be discussed

in more detail here In addition the central motifs which permeate the narrative and which occur in an extraordinary density will be closely examined and some thematic aspects such as the automaton motif and the artist problem will be presented A comparison will also be made with Todorov's definition of fantasy

Ethics and Aesthetics in European Modernist Literature David Ellison, 2001-09-27 David Ellison's book is an investigation into the historical origins and textual practice of European literary Modernism Ellison's study traces the origins of Modernism to the emergence of early German Romanticism from the philosophy of Immanuel Kant and emphasizes how the passage from Romanticism to Modernism can be followed in the gradual transition from the sublime to the uncanny Arguing that what we call High Modernism cannot be reduced to a religion of beauty an experimentation with narrative form or even a reflection on time and consciousness Ellison demonstrates that Modernist textuality is characterized by the intersection overlapping and crossing of aesthetic and ethical issues Beauty and morality relate to each other as antagonists struggling for dominance within the related fields of philosophy and theory on the one hand Kant Kierkegaard Nietzsche Freud and imaginative literature on the other Baudelaire Proust Gide Conrad Woolf Kafka

The Doppelgänger Dimitris Vardoulakis, 2010-07-22 The Doppelgänger or Double presents literature as the double of philosophy There are historical reasons for this The genesis of the Doppelgänger is literature's response to the philosophical focus on subjectivity The Doppelgänger was coined by the German author Jean Paul in 1796 as a critique of Idealism's assertion of subjective autonomy individuality and human agency This critique prefigures post War extrapolations of the subject as decentred From this perspective the Doppelgänger has a family resemblance to current conceptualizations of subjectivity It becomes the emblematic subject of modernity This is the first significant study on the Doppelgänger's influence on philosophical thought The Doppelgänger emerges as a hidden and unexplored element both in conceptions of subjectivity and in philosophy's relation to literature Vardoulakis demonstrates this by employing the Doppelgänger to read literature philosophically and to read philosophy as literature The Doppelgänger then appears instrumental in the self conception of both literature and philosophy

Zionism, the German Empire, and Africa Axel Stähler, 2018-11-05 Zionism the German Empire and Africa explores the impact on the self perception and culture of early Zionism of contemporary constructions of racial difference and of the experience of colonialism in imperial Germany More specifically interrogating in a comparative analysis material ranging from mainstream satirical magazines and cartoons to literary aesthetic and journalistic texts advertisements postcards and photographs monuments and campaign medals ethnographic exhibitions and publications popular entertainment political speeches and parliamentary reports the book situates the short lived but influential Zionist satirical magazine Schlemiel 1903-07 in an extensive network of nodal clusters of varying and shifting significance and with differently developed strains of cohesion or juncture that roughly encompasses the three decades from 1890 to 1920

Beyond Mimesis Jörg Sternagel, James Tobias,, Dieter Mersch, 2023-12-20 Providing a solid media philosophical groundwork Beyond Mimesis contributes to the theory of mimesis and alterity in performance

philosophy while serving to stimulate and inspire future inquiries where studies in media and art intersect with philosophy It collects a wide range of philosophical and artistic thinkers work to develop an exacting framework with clear movement beyond mimesis in aesthetic experiences in uncanny valleys Together the chapters ask if intersubjective acts of relating that are defined by alterity responsivity or witness and trust can be transferred to artificial beings without remainder The proposed framework uses a particularly fruitful theoretical model for this inquiry known as the uncanny valley a fictitious schema developed in 1970 by Japanese roboticist Masahiro Mori According to Mori artificial beings or animated dolls become more eerie to us the more humanlike they appear The model s utility requires distinguishing between visual media and real life but in general it suggests that there is a fundamental incommensurability between people and artificial beings that cannot be ignored This necessitates that all too realistic representations as well as fictional encounters with artificial beings do not transgress certain limits According to Mori it is an ethical imperative of their design that they evidence a certain degree of dissimilarity with people This notion seems especially applicable to artistic projects in which animated dolls or robots make explicit their doll ness or robot ness and thus inscribe a moment of reflexivity into the relations they establish With contributions by Elena Dorfman J rg Sternagel Dieter Mersch Allison de Fren Nadja Ben Khelifa James Tobias Grant Palmer Stephan G nzel Nicole Ku uleinapuananioliko awapuhimelemeleolani Furtado Misha Choudhry and a conversation between Carolin Bebek Simon Makhali and Anna Suchard

Narcissism and Paranoia in the Age of Goethe Alexander Mathäs, 2008 The analyses of poems narratives dramas and critical texts by Moritz Schiller Herder Tieck Goethe Lavater and others shed new light on how progress in the medical philosophical and anthropological discourses of the time converge with aesthetic and literary considerations The volume illustrates how aspects of Freud s psychology have grown out of notions of subjectivity not confined to the Victorian age as is often assumed but with roots in the contradicting values of bourgeois emancipation Jacket
