Dasein Disclosed John Haugeland, 2013-03-01 At his death in 2010 the Anglo American analytic philosopher John Haugeland left an unfinished manuscript summarizing his life long engagement with Heidegger's Being and Time As illuminating as it is iconoclastic *Dasein Disclosed* is not just Haugeland's Heidegger this sweeping reevaluation is a major contribution to philosophy in its own right *Heidegger on Being Uncanny* Katherine Withy, 2015-04-07 There are bizarre moments when we feel like strangers to ourselves Through an investigation of Heidegger's concept of uncanniness Katherine Withy explores what such experiences reveal She shows that we can be what we are only if we do not fully understand what it is to be us and points toward what it is to live well as an uncanny human being *Heidegger and the Contradiction of Being* Filippo Casati, 2021-11-29 This book offers a clear analytic and innovative interpretation of Heidegger's late work This period of Heidegger's philosophy remains largely unexplored by analytic philosophers who consider it filled with inconsistencies and paradoxical ideas particularly concerning the notions of Being and nothingness This book takes seriously the claim that the late Heidegger endorses dialetheism namely the position according to which some contradictions are true and shows that the idea that Being is both an entity and not an entity is neither incoherent nor logically trivial The author achieves this by presenting and defending the idea that reality has an inconsistent structure In doing so he takes one of the most discussed topics in current analytic metaphysics grounding theory into a completely unexplored area Additionally in order to make sense of Heidegger's concept of nothingness the author introduces an original axiomatic mereological system that having a paraconsistent logic as a base logic can tolerate inconsistencies without falling into logical triviality This is the first book to set forth a complete and detailed discussion of the late Heidegger in the framework of analytic metaphysics It will be of interest to Heidegger scholars and analytic philosophers working on theories of grounding mereology dialetheism and paraconsistent logic *The Feeling Intellect* Steven Groarke, 2022-06-24 In *The Feeling Intellect* Steven Groarke explores the overlap between psychoanalysis and philosophy in order to provide the first critical evaluation of the Independent tradition in British and American psychoanalysis The book focuses on the formation of Independent object relations theory as an original mid to late twentieth century development in post Freudian psychoanalysis focusing on contributions by Fairbairn Winnicott Loewald and others to add to our understanding of what the author terms the dependence relationship the earliest relationship between mother and infant The theory of acts and relations provides the basic framework for more detailed discussions of the psychoanalysis of time including Loewald's idea of the inner future and the role of re-descriptive memory as a type of reclamation This book is aimed at a readership intent on exploring the philosophical aspects of contemporary psychoanalysis in more detail It will be of great value to psychoanalysts psychotherapists and students studying psychology *Division III of Heidegger's Being and Time* Lee Braver, 2015-12-09 Leading philosophers and scholars speculate on what Heidegger's unfinished masterpiece might have said why Heidegger

didn't publish it and what being actually means Heidegger's *Being and Time* is one of the most influential and important books in the history of philosophy but it was left unfinished The parts we have of it Divisions I and II of Part One were meant to be merely preparatory for the unwritten Division III which was to have formed the point of the entire book when it turned to the topic of being itself In this book leading Heidegger scholars and philosophers influenced by Heidegger take up the unanswered questions in Heidegger's masterpiece speculating on what Division III would have said and why Heidegger never published it The contributors task to produce a secondary literature on a nonexistent primary work seems one out of fiction by Borges or Umberto Eco Why did Heidegger never complete *Being and Time* Did he become dissatisfied with it Did he judge it too subjectivistic not historical enough too individualistic too existential Was abandoning it part of Heidegger's *Kehre* his supposed turning from his early work to his later work Might Division III have offered a bridge between the two phases if a division exists between them And what does being mean after all The contributors in search of lost *Being and Time* consider these and other topics shedding new light on Heidegger's thought Contributors Alain Badiou Lee Braver Daniel Dahlstrom Charles Guignon Graham Harman Karsten Harries Ted Kisiel Denis McManus Eric S Nelson Richard Polt François Raffoul Thomas Sheehan Iain Thomson Kate Withy Julian Young

Heidegger on Being Self-concealing Katherine Withy, 2022 What is Heidegger talking about when he says that being conceals itself This is the first study to systematically address that question Withy sorts the phenomena of concealing and concealment that Heidegger discusses into a highly structured taxonomy thereby clarifying Heidegger's notoriously difficult discussions of being as self-concealing

Pragmatic Perspectives in Phenomenology Ondrej Svec, Jakub Capek, 2017-06-26 Pragmatic Perspectives in Phenomenology offers a complex analysis of the pragmatic theses that are present in the works of leading phenomenological authors including not only Heidegger and Merleau-Ponty as it is often the case within Hubert Dreyfus tradition but also Husserl Levinas Scheler and Patocka Starting from a critical reassessment of existing pragmatic readings which draw especially on Heidegger's account of Being in the world the volume's chapters explore the following themes as possible justifications for speaking about the pragmatic turn in phenomenology the primacy of the practical over theoretical

understanding criticism of the representationalist account of perception and consciousness and the analysis of language and truth within the context of social and cultural practices Having thus analyzed the pragmatic readings of key phenomenological concepts the book situates these readings in a larger historical and thematic context and introduces themes that until now have been overlooked in debates including freedom alterity transcendence normativity distance and self knowledge This volume seeks to refresh the debate about the phenomenological legacy and its relevance for contemporary thought by enlarging the thematic scope of pragmatic motives in phenomenology in new and revealing ways It will be of interest to advanced students and scholars of phenomenology who are interested in moving beyond the analytic continental divide to explore the relationship between practice and theory

Hermeneutics and the Problem of Translating Traditional Arabic Texts Alsayed M. Aly Ismail, 2017-08-21 This book focuses on the problematic issues arising when translating and interpreting classical Arabic texts which represent a challenging business for many scholars especially with regards to religious texts Additionally the reception of these interpretations and translations not only informs the perception of Muslims and their awareness of the outside world but also impacts the vision and perception of non Muslims of Islam and the Muslim world Consequently this book reconsiders the concepts of understanding and interpretation and their nexus in the mechanism of translation and proposes a novel hermeneutic method of translating interpreting and understanding traditional and classical Arab texts Handling the issues of understanding from a hermeneutical perspective is shown here to remove the possibility of translation and interpretation rendering a distorted translated text Drawing on the powerful interpretive theories of Hans Georg Gadamer and Martin Heidegger the hermeneutic method of translation starts from a premise that the meaning of a classical text cannot be deduced solely by linguistic analysis of its words but requires in depth investigation of the invisible contextual elements that control and shape its meaning Traditional texts are seen in this model as travelling texts whose meaning is transformed across time and space The hermeneutic method of translation allows the translator to identify those elements from the real world that informed a classical text at the time of its writing so that it can be adapted and made relevant to its contemporary context Traditional texts can enlighten our minds and cultivate our souls religious texts can elevate our behavior and thinking and help refine our confused contemporary lives When texts become isolated from their world they lose this lofty goal of enlightenment and elevation
