Pragmatic Idealism Axel Wüsthube, Michael Quante, 1998 From the contents Moral facts and objective values Timo Airaksinen Values and reasons Leonardo Rodriguez Dupla Rescher on evolution and the intelligibility of nature George Gale The nature of philosophy John Kekes Individual and other person morality a plea for an emotional response to ethical problems Peter Machamer Was Spinoza a person Raymond Martin

Cultures of Psychiatry and Mental Health Care in Postwar Britain and the Netherlands, 1998 Anti psychiatry is a movement more sloganized than analysed Until now it has been associated in the English speaking world primarily with R D Laing and a coterie of his associates and a radical critique not just of psychiatric hospitalization but of the very premises of psychiatry itself and the basic institutions of society especially the family But are these notions accurate or rather distorted images created by Laing himself or by the media In this book which has emerged out of an Anglo Dutch conference held in June 1997 the realities of critical psychiatry are explored using comparisons and contrasts between the British and the Dutch experiences as a probe There were it turns out various distinct anti psychiatries indeed hardly anybody actually used that label about themselves and they played a role in the reform no less than the rejection of regular psychiatry

Cultures of Child Health in Britain and the Netherlands in the Twentieth Century, 2016-08-22 The health and welfare of children became an area of concern and action in the early decades of the twentieth century This concern would develop an ever broader remit during the course of the century moving from anxiety about high death rates physical health and the unfit to embrace all children and the mental health and the psychological well being of individuals This volume emerged out of an Anglo Dutch Workshop held at the University of Warwick in July 1999 and is the first book to explore child health in the twentieth century in a comparative perspective focussing on such issues as the link between child health and citizenship the impact of ideas concerning degeneracy socialisation consumerism and children s rights and the role of the family state and experts in mediating child health
