D3.js: Cutting-edge Data Visualization Andrew H. Rininsland, Michael Heydt, Pablo Navarro Castillo, 2017-03-31 Turn your raw data into real knowledge by creating and deploying complex data visualizations with D3.js About This Book Understand how to best represent your data by developing the right kind of visualization Explore the concepts of D3.js through examples that enable you to quickly create visualizations including charts network diagrams and maps Get practical examples of visualizations using real world data sets that show you how to use D3.js to visualize and interact with information to glean its underlying meaning Who This Book Is For Whether you are new to data and data visualization a seasoned data scientist or a computer graphics specialist this Learning Path will provide you with the skills you need to create web based and interactive data visualizations Some basic JavaScript knowledge is expected but no prior experience with data visualization or D3.js is required What You Will Learn Gain a solid understanding of the common D3.js development idioms Find out how to write basic D3.js code for servers using Node.js Install and use D3.js to create HTML elements within a document Create and style graphical elements such as circles ellipses rectangles lines paths and text using SVG Turn your data into bar and scatter charts and add margins axes labels and legends Use D3.js generators to perform the magic of creating complex visualizations from data Add interactivity to your visualizations including tool tips sorting hover to highlight and grouping and dragging of visuals Write test and distribute a D3.js based charting package Make a real time application with Node and D3.js In Detail D3.js has emerged as one of the leading platforms to develop beautiful interactive visualizations over the web We begin the course by setting up a strong foundation then build on this foundation as we take you through the entire world of reimagining data using interactive animated visualizations created in D3.js In the first module we cover the various features of D3.js to build a wide range of visualizations We also focus on the entire process of representing data through visualizations By the end of this module you will be ready to use D3.js to transform any data into a more engaging and sophisticated visualization In the next module you will learn to master the creation of graphical elements from data Using practical examples provided you will quickly get to grips with the features of D3.js and use this learning to create your own spectacular data visualizations with D3.js Over the last leg of this course you will get acquainted with how to integrate D3.js with mapping libraries to provide reverse geocoding and interactive maps among many other advanced features of D3.js This module culminates by showing you how to create enterprise level dashboards to display real time data This Learning Path combines some of the best that Packt has to offer in one complete curated package It includes content from the following Packt products Learning D3.js Data Visualization Second Edition by Andrew H Rininsland D3.js By Example by Michael Heydt Mastering D3.js by Pablo Navarro Castillo Style and approach This course provides a comprehensive explanation of how to leverage the power of D3.js to create powerful and creative visualizations through step by step instructions in the form of modules Each module help you skill up a level in creating meaningful visualizations *Data Visualization with*

JavaScript Stephen A. Thomas, 2015-03-15 You've got data to communicate. But what kind of visualization do you choose? how do you build your visualizations and how do you ensure that they're up to the demands of the Web? In *Data Visualization with JavaScript* you'll learn how to use JavaScript, HTML, and CSS to build practical visualizations for your data. Step by step examples walk you through creating, integrating, and debugging different types of visualizations, and you'll be building basic visualizations like bar, line, and scatter graphs in no time. You'll also learn how to create tree maps, heat maps, network graphs, word clouds, and timelines. Map geographic data and build sparklines and composite charts. Add interactivity and retrieve data with AJAX. Manage data in the browser and build data-driven web applications. Harness the power of the Flot, Flot2, Chronoline.js, D3.js, Underscore.js, and Backbone.js libraries. If you already know your way around building a web page but aren't quite sure how to build a good visualization, *Data Visualization with JavaScript* will help you get your feet wet without throwing you into the deep end. You'll soon be well on your way to creating simple, powerful data visualizations. **Data**

Ritchie S. King, 2014-08-23 Master D3: Today's Most Powerful Tool for Visualizing Data on the Web. Data-driven graphics are everywhere these days, from websites and mobile apps to interactive journalism and high-end presentations. Using D3, you can create graphics that are visually stunning and powerfully effective. *Visual Storytelling with D3* is a hands-on, full-color tutorial that teaches you to design charts and data visualizations to tell your story quickly and intuitively, and that shows you how to wield the powerful D3 JavaScript library. Drawing on his extensive experience as a professional graphic artist, writer, and programmer, Ritchie S. King walks you through a complete sample project from conception through data selection and design. Step by step, you'll build your skills, mastering increasingly sophisticated graphical forms and techniques. If you know a little HTML and CSS, you have all the technical background you'll need to master D3. This tutorial is for web designers creating graphics-driven sites, services, tools, or dashboards; online journalists who want to visualize their content; researchers seeking to communicate their results more intuitively; marketers aiming to deepen their connections with customers; and for any data visualization enthusiast. Coverage includes: Identifying a data-driven story and telling it visually; Creating and manipulating beautiful graphical elements with SVG; Shaping web pages with D3; Structuring data so D3 can easily visualize it; Using D3's data joins to connect your data to the graphical elements on a web page; Sizing and scaling charts and adding axes to them; Loading and filtering data from external, standalone datasets; Animating your charts with D3's transitions; Adding interactivity
