Encyclopedia of Diasporas Melvin Ember, Carol R. Ember, Ian Skoggard, 2004-11-30 Immigration is a topic that is as important among anthropologists as it is the general public Almost every culture has experienced adaptation and assimilation when immigrating to a new country and culture usually leaving for what is perceived as a better life Not only does this diaspora change the country of adoption but also the country of origin Many large nations in the world have absorbed and continue to absorb large numbers of immigrants The foreseeable future will see a continuation of large scale immigration as many countries experience civil war and secessionist pressures Currently there is no reference work that describes the impact upon the immigrants and the immigrant societies relevant to the world's cultures and provides an overview of important topics in the world's diasporas The encyclopedia consists of two volumes covering three main sections *Diaspora Overviews* covers over 20 ethnic groups that have experienced voluntary or forced immigration These essays discuss the history behind the social economic and political reasons for leaving the original countries and the cultures in the new places *Topics* discusses the impact and assimilation that the immigrant cultures experience in their adopted cultures including the arts they bring the struggles they face and some of the cities that are in the forefront of receiving immigrant cultures *Diaspora Communities* include over 60 portraits of specific diaspora communities Each portrait follows a standard outline to facilitate comparisons The *Encyclopedia of Diasporas* can be used both to gain a general understanding of immigration and immigrants and to find out about particular cultures topics and communities It will prove of great value to researchers and students curriculum developers

teachers and government officials It brings together the disciplines of anthropology social studies political studies international studies and immigrant and immigration studies **#MeToo and Cyber Activism in China** Li Ma,2021-11-15 This book focuses on the MeToo movement in China critically examining how three competing ideologies have worked in co-opting MeToo activism China's official communism Western neoliberalism and an emerging Chinese cyber feminism In 2018 China's MeToo cyber activism initially maintained its momentum despite strict censorship presenting women's voices against gendered violence and revealing scripts of power in different sectors of society Eventually though it lost impetus with sloganization and stigmatization under a trio of forces of pressures corporate corruption over politicization by Western media and continued state censorship The book documents the social events and gendered norms in higher education nongovernmental organizations NGOs business and religious circles that preceded and followed high profile cases of alleged sexual abuses in mainland China engaging with sociological scholarship relating to demoralization and power media studies and gender studies Through these entwined theories the author seeks to give both scholars and the general audience in gender studies a window into the ongoing tension in the power spheres of state market and gendered hierarchy in contemporary Chinese society This book will be of interest to students of gender studies China studies media studies and cultural studies **Love and Marriage in Globalizing China** Wang Pan,2014-11-13 As China globalizes the number of marriages between Chinese people and foreigners is increasing These Chinese foreign marriages have profound implications for China's cultural identity This book based on extensive original research outlines the different types of Chinese foreign marriage and divorce and the changing scale and changing patterns of such marriages and divorces and examines how such marriages and divorces are portrayed in different kinds of media It shows how those types of Chinese foreign marriage where Chinese patriotism and Chinese values are preserved are depicted favourably whereas other kinds of Chinese foreign marriage especially those where Chinese women marry foreign nationals are disapproved of male foreign nationals being seen as having a propensity to infidelity deception violence and taking advantage of Chinese women The book contrasts the portrayal of Chinese foreign marriage with the reality and with the depiction of Chinese Chinese marriage where many of the same problems apply Overall the book sheds much light on changing social processes and on current imaginings of China's place in the world **Intimate Mobilities** Christian Groes,Nadine T. Fernandez,2018-05-24 As globalization and transnational encounters intensify people's mobility is increasingly conditioned by intimacy ranging from love desire and sexual liaisons to broader family kinship and conjugal matters This book explores the entanglement of mobility and intimacy in various configurations throughout the world It argues that rather than being distinct and unrelated phenomena intimacy related mobilities constitute variations of cross border movements shaped by and deeply entwined with issues of gender kinship race and sexuality as well as local and global powers and border restrictions in a disparate world *Mobile Media and Social Intimacies in Asia* Jason Vincent A. Cabañes,Cecilia S. Uy-Tioco,2020-01-09 This edited volume brings together

cutting edge studies from emerging scholars of East Southeast Asia who explore the role of mobile media in the contemporary transformation of the region's social intimacies from the romantic to the familial to the communal. By providing a regional and transnational overview of such studies it affords new insights into how these mobile technologies have contributed to the rise of glocal intimacies. This pertains to the normalisation and intensification of how people's relationships of closeness are entangled in the ever shifting and constantly negotiated flows between global modernity and local everyday life. In providing case studies of mobile media and glocal intimacies the chapters in the volume attend to a broad range of countries that include China, Korea, Malaysia, the Philippines, Singapore, Vietnam, and Taiwan. This illustrates the differing ways in which mobile media might be embedded in the region's divergent articulations of social intimacies which reflect the ongoing tensions between Western and Asian imaginaries of modernity. The chapters also discuss a wide array of mobile media that people use from social media platforms like Facebook and Instagram to messaging apps like KakaoTalk and WhatsApp to dating apps like Tinder and Blued. This allows for a mapping out of the different levels of impact that mobile media might have on social intimacies in a region that contains some of the most technologically advanced as well as the most technologically behind societies in the world. In summary this book allows readers to take a comparative approach to understanding the complexity of the glocal intimacies that are emerging from the ways people in Asia use mobile media to reconfigure their local ties and to enact global relationships. This volume will benefit students, academics and researchers who are keen in media and communication, cultural studies, sociology, anthropology and Asian studies. This exciting and much needed book will greatly advance our efforts to decolonise media and communications research. The chapters offer empirically rich and nuanced accounts that challenge the dominant paradigms about mediated intimacy.

This collection develops the original concept of glocal intimacies to describe how mobile media have become a crucial site where new social intimacies are enacted, reinforced and transformed in Asia. It introduces fresh empirical research from emerging scholars to furnish deep theoretical insights into these imaginaries and practices.
