the experiences of hearing voices and seeing visions were understood within the cultural literary and intellectual contexts of the medieval and early modern periods In the Middle Ages these experiences were interpreted according to frameworks that could credit visionaries or voice hearers with spiritual knowledge and allow them to inhabit social roles that were as much desired as feared Voice hearing and visionary experience offered powerful creative possibilities in imaginative literature and were often central to the writing of inner spiritual lives Ideas about such experience were taken up and reshaped in response to the cultural shifts of the early modern period These essays which consider the period 1100 to 1700 offer diverse new insights into a complex controversial and contested category of human experience exploring literary and spiritual works as illuminated by scientific and medical writings natural philosophy and theology and the visual arts In extending and challenging contemporary bio medical perspectives through the insights and methodologies of the arts and humanities the volume offers a timely intervention within the wider project of the medical humanities Chapters 2 and 5 are available open access under a Creative Commons Attribution 4 0 International License via link.springer.com

Christopher Marlowe, Theatrical Commerce, and the Book Trade Kirk Melnikoff, Roslyn L. Knutson, 2018-10-18 Presenting the first exploration of Christopher Marlowe's complex place in the canon this collection reads Marlowe's work against an extensive backdrop of repertory publication transmission and reception Wide ranging and thoughtful chapters consider Marlowe's deliberate engagements with the stage and print culture the agents and methods involved in the transmission of his work and his cultural reception in the light of repertory and print evidence With contributions from major international scholars the volume considers all of Marlowe's oeuvre offering illuminating approaches to his extended animation in theatre and print from the putative theatrical debut of Tamburlaine in 1587 to the most current editions of his work

The Routledge Research Companion to Shakespeare and Classical Literature Sean Keilen, Nick Moschovakis, 2017-03-31 In this wide ranging and ambitiously conceived Research Companion contributors explore Shakespeare's relationship to the classic in two broad senses The essays analyze Shakespeare's specific debts to classical works and weigh his classicism's likeness and unlikeness to that of others in his time they also evaluate the effects of that classical influence to assess the extent to which it is connected with whatever qualities still make Shakespeare himself a classic arguably the classic of modern world literature and drama The first sense of the classic which the volume addresses is the classical culture of Latin and Greek reading translation and imitation Education in the canon of pagan classics bound Shakespeare together with other writers in what was the dominant tradition of English and European poetry and drama up through the nineteenth and even well into the twentieth century Second and no less central is the idea of classics as such that of books whose perceived value exceeding that of most in their era justifies their protection against historical and cultural change The volume's organizing insight is that as Shakespeare was made a classic in this second antiquarian sense his work's reception has more and more come to resemble that of classics in the first sense of ancient texts subject to labored critical study by masses of professional

interpreters who are needed to mediate their meaning simply because of the texts growing remoteness from ordinary life language and consciousness The volume presents overviews and argumentative essays about the presence of Latin and Greek literature in Shakespeare's writing They coexist in the volume with thought pieces on the uses of the classical as a historical and pedagogical category and with practical essays on the place of ancient classics in today's Shakespearean classrooms

Christopher Marlowe at 450 Sara Munson Deats, Robert A. Logan, 2016-05-23 There has never been a retrospective on Christopher Marlowe as comprehensive complete and up to date in appraising the Marlovian landscape Each chapter has been written by an eminent international Marlovian scholar to determine what has been covered what has not and what scholarship and criticism will or might focus on next The volume considers all of Marlowe's dramas and his poetry including his translations as well as the following special topics Critical Approaches to Marlowe Marlowe's Works in Performance Marlowe and Theatre History Electronic Resources for Marlovian Research and Marlowe's Biography Included in the discussions are the native continental and classical influences on Marlowe and the ways in which Marlowe has interacted with other contemporary writers including his influence on those who came after him The volume has appeal not only to students and scholars of Marlowe but to anyone interested in Renaissance drama and poetry Moreover the significance for readers lies in the contributors' approaches as well as in their content Interest in the biography of Christopher Marlowe and in his works has burgeoned since the turn of the century It therefore seems especially appropriate at this time to present a comprehensive assessment of past and present traditional and innovative lines of inquiry and to look forward to future developments
