

CHRYSLER SHOP MANUAL

FOREWORD

THIS manual is intended as both a guide and a reference book in the complete servicing of Chrysler cars.

It is complete in its operation detail, but brief and pointed in its instructions. Essentials, properly organized in its plan.

The book is divided into three major sections:

1. Servicing Methods.
2. Service Standards.
3. Service Tools.

Servicing Methods have been grouped according to major assemblies of the car. Under each major unit the operations have been carefully outlined and numerous artist illustrations with proper tools in use have been introduced to clarify the text. And in addition many major units are illustrated in "exploded" form to aid in proper re-assembly. For further convenience, each subject has been treated in the following steps, in so far as it has been possible:

1. Removal and Installation.
2. Adjustments.
3. Maintenance.

Service Standards have been tabulated for the purpose of separating adjustments and standard sizes from the text and making them available for quick reference.

The Service Tool section shows the tools essential for car servicing. All are obtainable from the Miller Tool and Manufacturing Company, Detroit, Michigan, unless otherwise indicated. A complete catalog of all service tools for both cars and trucks will be supplied by the Miller Tool and Manufacturing Company, on request.

A thorough understanding of the contents of this manual is necessary in every good service department. Study it carefully and frequently.
