All About Process Kim Grant, 2017-02-28 In recent years many prominent and successful artists have claimed that their primary concern is not the artwork they produce but the artistic process itself In this volume Kim Grant analyzes this idea and traces its historical roots showing how changing concepts of artistic process have played a dominant role in the development of modern and contemporary art This astute account of the ways in which process has been understood and addressed examines canonical artists such as Monet C zanne Matisse and De Kooning as well as philosophers and art theorists such as Henri Focillon R G Collingwood and John Dewey Placing process art within a larger historical context Grant looks at the changing relations of the artist s labor to traditional craftsmanship and industrial production the status of art as a commodity the increasing importance of the body and materiality in art making and the nature and significance of the artist s role in modern society In doing so she shows how process is an intrinsic part of aesthetic theory that connects to important contemporary debates about work craft and labor Comprehensive and insightful this synthetic study of process in modern and contemporary art reveals how artists explicit engagement with the concept fits into a broader narrative of the significance of art in the industrial and postindustrial world [Intranets for Info Pros](#) Mary Lee

Kennedy, Jane Dysart, 2007 The intranet is among the primary landscapes in which information based work occurs yet many info pros continue to view it with equal parts skepticism and dread In *Intranets for Info Pros* editors Mary Lee Kennedy and Jane Dysart and their 10 expert contributors provide support and encouragement to the information professional responsible for implementing or contributing to an intranet Chapters demonstrate the intranet's strategic value describe important trends and best practices and equip info pros to make a key contribution to their organization's intranet success Chuck Close Chuck Close, Museo Nacional Centro de Arte Reina Sofía, 2007 Dyslexia and Creativity Ken Gobbo, 2019-12-04 This volume provides a general overview of the history of the relatively common learning disability known as dyslexia and explores it from a cognitive and neurological point of view It also offers insights into the phenomena of creativity and outlines a theory that links dyslexia to the creative process The book illustrates these ideas with overviews of the lives of five well known Americans recognized for their creative pursuits artists Robert Rauschenberg Chuck Close and Charles Ray and writers John Irving and Wendy Wasserstein All five faced the struggles that accompany dyslexia and recognized the positive traits afforded by their learning differences harnessing them to further their creative processes
