**The Regulation of Private Schools in America** ,1995 Today a parent s right to choose a private education for his or her children is reflected in the statutes of all 50 states State regulation of private schools however is not without limitations The challenge to state legislators in regulating private schools is to draft legislation that 1 respects the fundamental right of parents to direct the education of their children 2 protects the states interest in an informed citizenry but avoids interference with religious beliefs unless compelling interests are at issue and 3 avoids comprehensive regulation of private education that would deprive parents of any choice in education This handbook presents findings of a study initiated by the Office of Nonpublic Education U S Department of Education that conducted a state by state analysis of state laws regulating private education The study which includes all 50 states Puerto Rico the Virgin Islands and the District of Columbia identified the following general areas of regulation advanced by state legislators recordkeeping and reports licensing registration accreditation health and safety curriculum and public funding The data show that none of the states regulates private schools in the same way The report contains comparison charts depicting state oversight of private schools state mandated educational requirements and public assistance to private schools and private school children LMI      *The Church and Private Schools of North Carolina* Charles Lee Raper, 2015-08-31 This work has been selected by scholars as being culturally
