Christopher Columbus Mariner Meridian:

Christopher Columbus, Mariner Samuel Eliot Morison, 1956 An account of the life and voyages of Christopher Columbus **Columbus** Laurence Bergreen, 2012-09-25 He knew nothing of celestial navigation or of the existence of the Pacific Ocean He was a self promoting and ambitious entrepreneur His maps were a hybrid of fantasy and delusion When he did make land he enslaved the populace he found encouraged genocide and polluted relations between peoples He ended his career in near lunacy But Columbus had one asset that made all the difference an inborn sense of the sea of wind and weather and of selecting the optimal course to get from A to B Laurence Bergreen's energetic and bracing book gives the whole Columbus and most importantly the whole of his career not just the highlight of 1492 Columbus undertook three more voyages between 1494 and 1504 each designed to demonstrate that he could sail to China within a matter of weeks and convert those he found there to Christianity By their conclusion Columbus was broken in body and spirit a hero undone by the tragic flaw of pride If the first voyage illustrates the rewards of exploration this book shows how the subsequent voyages illustrate the costs political moral and economic The Mariner's Mirror Leonard George Carr Laughton, Roger Charles Anderson, William Gordon Perrin, 1927 **Daily Life in the Age of Sail** Dorothy Volo, James M. Volo, 2001-11-30 From the Thirteenth century through the Nineteenth the waterways of the world provided the major means of transportation for exploration trade the military and even criminals Find out what life was like for those who chose to sail the high seas as well as for those who didn't choose to be on board like wives brought to sea by husbands and slaves en route to the auction block What were their quarters like What did they eat How did they pass their long days at sea These and other questions are answered in animated prose that brings the lives of ordinary people who oftentimes engaged in extraordinary activities into sharp focus First hand accounts from such sources as personal journals and magazine articles are provided to help bring the time period alive Students will also learn what life was like in the seaport towns and what the sailors did when they visited these towns as well as the physical parts of the ships and the different roles different members of the crew played This engaging history helps to separate fact from fiction while exploring the reasons the sea and sea life have held such prominent roles in popular fiction and will help students understand what life was truly like for these people **Hart Crane and the Modernist Epic** D. Gabriel, 2016-05-24 This study examines Hart Crane's canonical ambitions in *The Bridge* and argues for a new species of epic the modernist epic which also includes Pound's *The Cantos* Eliot's *The Waste Land* and Williams's *Paterson* It offers a close reading of *The Bridge* as a hybrid of lyric and epic modes Crane's sublime and history converge in a complex synthesis of form and ideas The study reconceives Crane's achievement by locating him in an intertextual system of production while also recognizing his poetic making of self Yet in this work Crane assumes a greater political presence than much commentary has entertained *Bartolomé de Las Casas* Paul S. Vickery, 2006 Bartolome de las Casas 1484-1566 came to the New World in pursuit of material wealth became virtually a slave owner and ended up suddenly and dramatically

turning his life around to become a Dominican friar and the first great champion of the Native Americans Daring to challenge the Spanish *encomienda* system which was little more than a justification of forced labor Las Casas in the spirit of the great Hebrew Prophets spoke out unequivocally for justice and freedom for oppressed peoples His *The Only Way* which argued that the native peoples of the Americas are fully human can rightly be called one of the seminal documents of American Catholic social justice In this biography Paul Vickery focuses especially upon Las Casas's conversion journey Drawing upon Las Casas's own words and actions Vickery describes the historical setting and specific events leading up to Las Casas's spiritual awakening and then interprets this experience in light of his message for us today Students of history Western civilization and social justice will find here an original and provocative text about Colonial Latin America and Native American studies while students of ethics will find much food for thought in its treatment of questions of conscience and the moral choices with which we are confronted **BOOK JACKET**

Martyrs of Hope Brett, Donna Whitson ,Brett, Edward T.,2018-10-18 Here is the riveting and troubling story of seven U S martyrs in Central America who laid down their lives for their neighbors Father Stanley Rother Brother James Miller Sisters Maura Clarke Ita Ford Dorothy Kazel and Carla Piette and lay missionary Jean Donovan **Love and Hate in Jamestown** David A. Explains how Atlantis was destroyed by a comet the same comet that formed the mysterious Carolina Bays Reveals evidence of complex urban ruins off the coasts of Cuba and the Bahamas Shows how pre Columbian mariners visited the Caribbean and brought back stories of Atlantis s destruction Compares Plato s account with ancient legends from the indigenous people of North and South America such as the Maya the Quich and the Yuchi of Oklahoma The legend of Atlantis is one of the most intriguing mysteries of all time Disproving many well known Atlantis theories and providing a new hypothesis the evidence for which continues to build Andrew Collins shows that what Plato recounts is the memory of a major cataclysm at the end of the last Ice Age 13 000 years ago when a comet devastated the island of Cuba and submerged part of the Bahaman landmass in the Caribbean He parallels Plato s account with corroborating ancient myths and legends from the indigenous people of North and South America such as the Maya of Mesoamerica the Quich of Peru the Yuchi of Oklahoma the islanders of the Antilles and the native peoples of Brazil The author explains how the comet that destroyed Atlantis in the Caribbean was the same comet that formed the mysterious and numerous elliptical depressions known as the Carolina Bays found across the mid Atlantic United States He reveals evidence of sunken ruins off the coasts of both Cuba and the Bahamas ancient complexes spanning more than 10 acres that clearly suggest urban development and meticulously planned road systems Revealing the identity of Plato s opposite continent as ancient America Collins argues that Plato s story was first carried back to the Mediterranean world by trans Atlantic mariners such as the Phoenicians and Carthaginians as early as the first millennium BC He offers additional ancient trans Atlantis trade evidence from Egyptian mummies Roman shipwrecks in the Western Atlantic and the African features of giant stone heads in Mexico Piecing together the final days of Atlantis and the wildfires earthquakes tsunamis days of darkness and advancement of ice sheets that followed the ancient comet s impact Collins establishes not only that Atlantis did indeed exist but also that remnants of it survive today most obviously in Cuba Atlantis s original central island
