Christophers Story An Indictment Of The American Mental Health System:

Christopher's Story John C. Rubisch, Ph.D., 2015-07-23 Part biography part social commentary and part cold case a compelling tale of the author s descent into his son s problems and the madness of the perpetual dysfunction of the country s mental health system There is an astonishing level of detail taken from reports evaluations and the author s own journal entries as he records his frustration heartbreak as well as a fair amount of humor The MH system appears as bureaucratic maze of incompetence and callousness more interested in collecting insurance payments and protecting itself from liability than in assisting others The failure of the system in the case of the author s son has disastrous results Physically abused at the age of one and a half by his own biological father the subject of this book commits physical abuse to an infant twenty one years later with fatal consequences And just when readers have thought it couldn t get any worse there is a twist at the end that is beyond belief Staring when the boy was four the author writes of his efforts to raise his son by himself It is clear from the beginning that Christopher has emotional problems and the author seeks help However the boy is continuously misdiagnosed as ADHD with the solution being to try another medication Indications that the boy is brain damaged are ignored for many years In school learning takes a back seat to behavior management Adolescence brings violence substance abuse inappropriate sexual advances and turns in and out of placements At a crucial stage where both father and son are pleading for help the MH system does not even return phone calls Throughout the emphasis is on the failure of the MH system rather than the possible shortcomings of individuals Pseudonyms are used to maintain the focus on the system The author concludes by citing crucial points in his son s life where opportunities for interventions were missed He also cites long standard practices in the MH field that deflect accountability and keep the system inefficient Recommendations for changes in the system are made In the book s final passage the author citing a case of a student in the last year in which the recommendations by the MH system are totally inappropriate for the student Keywords Mental Health Medication Counseling Brain Damage Special Education ADHD Psychological Evaluation Bender Gestalt Rubisch MRI *No Truth No Justice* Audrey Edwards, 2002 A heartfelt account by the mother of a young man who was killed in his cell by a dangerous fellow prisoner with whom he had been wrongly placed by the Prison Service that was later castigated by the European Court of Human Rights It tells of a mammoth campaign for justice and to hold the authorities to account when faced with a wall of silence and indifference The author who now addresses audiences across the UK is keen to spread her message to the USA and available to travel there for that purpose at her own expense **Mental Health Research Grant Awards, Fiscal Years 1948-63** National Institute of Mental Health (U.S.), 1967 *The Research Grant Program, Fiscal Year* National Institute of Mental Health (U.S.), 1948 **Cumulated Index Medicus** , 1972 **Public Health Service Publication** , *Index Medicus* , 2002 Vols for 1963 include as pt 2 of the Jan issue Medical subject headings **Journal of the American Medical Association** American Medical Association, 1923 **Congressional Record** United States.
