Church Age Global Migration Interreligion:

Church in an Age of Global Migration Susanna Snyder, Agnes M. Brazal, Joshua Ralston, 2016-04-29 Migration has become a defining feature of the contemporary age. It has brought about significant changes in political, economic, social, and religious landscapes. This volume explores a question that has been little considered to date: how are churches being transformed in the face of global migration? The book features contributors from diverse national, denominational, cultural, professional, and linguistic backgrounds. Their essays reveal the ways in which migrants and the phenomenon of migration expose longstanding gaps and failings within Christian communities. However, the prevalence of migration and migrants simultaneously opens up fresh possibilities for churches to grow, renew, become more authentic, dynamic, and diverse. Church in an Age of Global Migration presents a collage of embodied ecclesial practices, understandings, and realities that have emerged and are continuing to develop in the face of global migration. Committed to transnational and ecumenical dialogue and to integrating practical and theoretical perspectives, this volume is the first to offer an in-depth analysis of the ways in which churches are being changed by migrants. Christian Theology in the Age of Migration Peter C. Phan, 2020-01-13 We are living in the Age of Migration, and migration has a profound impact on all aspects of society and on religious institutions. While there is significant research on migration in the social sciences, little study has been done to understand the impact of migration on Christianity. This book investigates this important topic and the ramifications for Christian theology and ethics. It begins with anthropological and sociological perspectives on the mutual impact between migration and Christianity, followed by a re-reading of certain events in the Hebrew Scripture, the New Testament, and Church history to highlight the central role of migration in the formation of Israel and Christianity. Then follow attempts to reinterpret in the light of migration the basic Christian beliefs regarding God, Christ, and church. The next part studies how migration raises new issues for Christian ethics, such as human dignity, human rights, state rights, social justice, and solidarity, and ecological justice. The last part explores what is known as Practical Theology by examining the implications of migration for issues such as liturgy and worship, spirituality, architecture, and education. **Global Tensions in the Russian Orthodox Diaspora** Robert Collins, 2022-12-30 This book explores the tensions that have arisen in the diaspora as a result of large numbers of Russian migrants entering established overseas parishes following the collapse of the Soviet Union. These tensions, made more fervent by the increasing role of the Church as part of the expression of Russian identity and by the Church's entry into the global culture wars, carry with them alternative views of a range of key issues: cosmopolitanism versus reservation, liberalism versus conservatism, and ecumenism versus dogmatism. The book focuses on particular disputes, discusses the broader debates, and examines the wider context of how the Russian Orthodox Church is evolving overall. 12 *Rules for Christian Activists* Ellen Loudon, 2020-04-30 In *12 Rules for Christian Activists*, Ellen Loudon and a host of contributors present 12 accessible and practical principles to encourage a new generation to create a movement for positive

social change

Interdependence HyeRan Kim-Cragg, 2018-05-31 This book calls attention to an urgent need for postcolonial feminist approaches to practical theology It not only advocates for the inclusion of colonialism as a critical optic for practical theology but also demands a close look at how colonialism is entangled with issues of race ethnicity gender class disability and sexual orientation Seeking to highlight the importance of the interdependence of life the author challenges and contests the notion of independence as the desirable goal of the human being Lifting up the

experiences of overlooked groups including children at adult centered worship queer and interracial youth in heterosexual and white normative family discourse and non human species in human centered academic and theological realms the book contributes to expanding the concerns of practical theology in ways that create healthy community for all human beings and non human fellow creatures It also takes up issues of multiple religious belonging and migration that practical theology has not sufficiently explored These illuminating new possibilities promise to renew and even transform church communities through the inclusion of often neglected groups with whom God is already present
