Church on the Edge of Somewhere George B. Thompson Jr., 2007-11-19

Most congregations today exist in what George Thompson calls the middle of anywhere They live comfortably with their surrounding culture focusing their energies on serving the needs of their current members These congregations have many strengths and gifts that they can exercise without changing a thing But Thompson envisions a deeper more prophetic call for congregations to explore the meaning of being in the world but not of it a church on the edge of somewhere Thompson sees a church that is deeply engaged in ministering to the community while calling on others to commit to doing the same By analyzing the interaction between a congregation s focus of identity and their stance with the world Thompson has created a helpful grid for congregations to place themselves on today s cultural map A congregation that sees itself as existing on the margins of society will look different than one that sees itself as embedded in society A congregation that hears a call to serve the surrounding community will look different from one that focuses on its internal needs Knowing where they stand now is the key for congregations to discover where they must go in the future to fully live out their call to be God s people in the world
