Churchill En De Nederlanders:

Hitler's Spy Against Churchill Jan-Willem van den Braak, 2022-06-16 From the summer of 1940 until May 1941 nearly twenty German Abwehr agents were dropped by boat or parachute into England during what was known as Operation Lena all in preparation for Hitler's planned invasion of England. The invasion itself would never happen and in fact after the war one of the Abwehr commanders declared that the operation was doomed to failure. There is no doubt that the operation did indeed become a fiasco with almost all of the officers being arrested within a very brief period of time. Some of the men were executed while others became double agents and spied for Britain against Germany. Only one man managed to stay at large for five months before eventually committing suicide: Jan Willem Ter Braak. Amazingly his background and objectives had always remained unclear and none of the other Lena spies had ever even heard of him. Even after the opening of the secret service files in England and the Netherlands over 50 years later Jan Willem Ter Braak remained a mystery man as the military historian Ladislav Farago famously described him. In this book the author, his near namesake, examines the short and tragic life of Jan Willem Ter Braak for the first time. Using in-depth research he investigates the possibility that Ter Braak was sent to kill the British Prime Minister Winston Churchill and discovers why his fate has remained largely unknown for so long.

To the Shores of Chile Mark Meuwese, 2019-07-15 *To the Shores of Chile* presents the remarkable story of an expedition that took place in Latin America during the height of the Dutch Empire. Skillfully translated by Mark Meuwese, this captivating work sheds light on Dutch imperialism and the complicated relationships between Native peoples and European colonizers. In 1643 the Dutch West India Company launched an expedition to the coast of southern Chile. With plans to set up a permanent outpost that they hoped would generate enormous revenues in gold and weaken the position of their Spanish rivals, a naval squadron of five vessels and six hundred and fifty soldiers, sailors, and craftsmen set sail under the direction of Hendrick Brouwer. In the end, lack of cooperation from the native Mapuche stymied the expedition. However, an account of the enterprise, based on the journals and logbooks, was published in Amsterdam in 1646 to capitalize on the public fascination with dangerous adventures of Europeans in exotic places and to serve as a political pamphlet in support of the renewal of the West India Company's charter. *To the Shores of Chile* makes this account available for the first time in English and sheds light on both Dutch expansionism and the military and diplomatic power of indigenous people in South America. It will be particularly valuable to ethnohistorians, scholars of failed colonies, and those interested in maritime and Dutch colonial history.

De Varende Hollander, 1945 **Documents of the Persecution of the Dutch Jewry 1940-1945** Joods Historisch Museum (Amsterdam, Netherlands), 1979 *Childhood, Memory and Autobiography in Holland* R. Dekker, 2019-06-12 Between the 17th and 19th centuries autobiographers and diarists invented new ways to write about childhood and children. At the same time pedagogical ideas about child rearing changed. This book looks at the connection between these developments. Egodocuments can bring the past alive and allow us to sketch six intimate portraits. The second

part of the book concentrates on the changes Childhood became more highly valued as a phase of life Children were taken more seriously This is shown in chapters on child s play punishment wet nursing and independence Around 1800 in diaries parents more openly grieved about the loss of a child which indicates both a change of literary conventions and changes in the way emotions were felt and expressed Finally autobiographers wrote more and differently about their early years and developed new memory strategies Autobiographical texts are discussed within a wider cultural setting using paintings poetry pedagogical tracts and novels This book makes clear how changes in autobiographical style the concept of childhood and the working of human memory are connected
