John Louis Lucaites, **Transformative Civic Education in Democratic Societies** Tetyana Hoggan-Kloubert, Paul E Mabrey III, Chad Hoggan, 2023-08-01 Democracy is neither inevitable nor guaranteed to last To survive democracy needs people adequately prepared to enact it Such preparation for effective citizenship in a complex and plural world requires an adult civic education one that goes beyond simple knowledge acquisition It requires a transformative education to help learners become agents and co shapers of their worlds This book offers examples of the roles that civic education has played and can play in different communities In this collection scholars from around the world report and reflect on civic adult education examining approaches paradigms and concepts that help us to act in culturally ethnically linguistically and religiously diverse societies

Market Affect and the Rhetoric of Political Economic Debates Catherine Chaput, 2019-08-14 What explains the triumph of capitalism Why do people so often respond positively to discussions favoring it while shutting down arguments against it Overwhelmingly theories regarding capitalism s resilience have focused on individual choice bolstered by careful rhetorical argumentation In this penetrating study however Catherine Chaput shows that something more than choice is at work in capitalism s ability to thrive in public practice and imagination more even than material resources power and cultural imperialism ideology That something she contends is market affect Affect says Chaput signifies a semi autonomous entity circulating through individuals and groups Physiological in nature but moving across cultural material and environmental boundaries affect has three functions it opens or closes individual receptivity it pulls or pushes individual identification and it

raises or lowers individual energies This novel approach begins by connecting affect to rhetorical theory and offers a method for tracking its three modalities in relation to economic markets Each of the following chapters compares a major theorist of capitalism with one of his important critics beginning with the juxtaposition of Adam Smith and Karl Marx who set the agenda not only for arguments endorsing and critiquing capitalism but also for the affective energies associated with these positions Subsequent chapters restage this initial debate through pairs of economic theorists John Maynard Keynes and Thorstein Veblen Friedrich Hayek and Theodor Adorno and Milton Friedman and John Kenneth Galbraith who represent key historical moments In each case Chaput demonstrates capitalism s critics have fallen short in their rhetorical effectiveness Chaput concludes by exploring possibilities for escaping the straitjacket imposed by these debates In particular she points to the biopolitical lectures of Michel Foucault as offering a framework for more persuasive anticapitalist critiques by reconstituting people s conscious understandings as well as their natural instincts *Speaking of Europe* Kjersti

Fløttum,2013-04-16 Recent years have witnessed the European Union struggling to keep Europe together in increasingly difficult economic and political circumstances Communication within and about European institutions has become more challenging in this perplexing political environment demonstrating the complex nature of EU political discourse In order to highlight these complexities the contributors to this volume present different theoretical and methodological approaches to the analysis of diverse facets of EU discourse realized through a variety of linguistic and discursive phenomena The approaches represent rhetorical theory metaphor and conceptual theory cognitive and corpus linguistics lexical statistics polyphony logical semantics pragmatic and philosophical perspectives Through this multitude of perspectives the book complements existing approaches and suggests new approaches in the study of political discourse **The SAGE Handbook of Public Relations** Robert Lawrence Heath,2010 Reflecting advances in theory research and application in the discipline since the publication of the Handbook of Public Relations in 2001 this new volume is global in scope and unmatched in its coverage of both academic research and professional best practice It presents major theories in the words of the leading advocates for each theory positions public relations as a positive force to help make society more fully functional and challenges academics and practitioners to identify best practices that can inform the work of those in the profession

Rhetoric and Hermeneutics Carol A. Newsom,2019-06-03 This collection of essays by Carol A Newsom explores the indispensable role that rhetoric and hermeneutics play in the production and reception of biblical and Second Temple literature Some of the essays are methodological and programmatic while others provide extended case studies Because rhetoric is as Kenneth Burke put it a strategy for encompassing a situation the analysis of rhetoric illumines the ways in which texts engage particular historical moments shape and reshape communities and even construct new models of self and agency The essays in this book not only explore how ancient texts hermeneutically engage existing traditions but also how they themselves have become the objects of hermeneutical transformation in contexts ranging from ancient sectarian

Judaism to the politics of post World War I and II Germany and America to modern film criticism and feminist re reading

The Rhetoric of Mao Zedong Xing Lu, 2022-04-13 This thorough examination of Mao's speeches and writings and how they reshaped a nation is critical to an understanding of modern China. Mao Zedong fundamentally transformed China from a Confucian society characterized by hierarchy and harmony into a socialist state guided by communist ideologies of class struggle and radicalization. It was a transformation made possible largely by Mao's rhetorical ability to attract, persuade, and mobilize millions of Chinese people. In this book, Xing Lu analyzes Mao's speeches and writings over a span of sixty years, tracing the sources and evolution of his discourse, analyzing his skills as an orator and mythmaker, assessing his symbolic power and continuing presence in contemporary China, and observing that Mao's rhetorical legacy has been commoditized, culturally consumed, and politically appropriated since his death. Applying both Western rhetorical theories and Chinese rhetorical concepts to reach a more nuanced and sophisticated understanding of his rhetorical legacy, Lu shows how Mao employed a host of rhetorical appeals and strategies drawn from Chinese tradition and how he interpreted the discourse of Marxism-Leninism to serve foundational themes of his message. She traces the historical contexts in which these themes, his philosophical orientations, and his political views were formed and how they transformed China and Chinese people. Lu also examines how certain ideas are promoted, modified, and appropriated in Mao's rhetoric. His appropriation of Marxist theory of class struggle, his campaigns of transforming common people into new communist advocates, his promotion of Chinese nationalism, and his stand on China's foreign policy all contributed to and were responsible for reshaping Chinese thought patterns, culture, and communication behaviors.

Economic Injustice and the Rhetoric of the American Dream Luke Winslow, 2017-07-24 Our economic arrangements require a persuasive story that can explain who is rich, who is poor, and why. This story shapes our attitudes toward what is just and unjust; this story dispenses power to some and withholds it from others; and the deeply political and paradoxical nature of this story presents a valuable site of rhetorical inquiry. *Economic Injustice and the Rhetoric of the American Dream* fills an important scholarly gap by connecting the need to make sense of economic arrangements with the rhetoric of the American Dream. Luke Winslow examines how the rhetoric of the American Dream has emerged as a dominant cultural touchstone in oscillation with a widespread shift to individualistic explanations for economic arrangements, the arrival of neoliberalism, growing levels of inequality, and dismal rates of economic mobility. By developing the tools of rhetorical and ideological criticism, this book explores the American Dream in relation to religious, economic, educational, and political institutions, ranging from Prosperity Theology to the candidacy and election of Donald Trump. Recommended for scholars in Communication, Economics, Political Science, and Religious Studies.
