Coming Of Age In New Jersey College And American Culture

G Thomas

Coming Of Age In New Jersey College And American Culture:

Coming of Age in New Jersey Michael Moffatt, 1989 To present these thoughtfully crafted case studies of undergraduate culture the author did what anthropologists usually do in more distant cultures he lived among the natives His findings are sometimes disturbing potentially controversial but somehow very believable This text presents a vivid slice of life of what the author saw and heard in the dorms of a typical state university Rutgers in the 1980s **Cultural Perspectives**

in Student Affairs Work George D. Kuh, 1993-05-18 This book describes how student affairs professionals can use cultural perspectives in their work Toward this end the contributors emphasize implications and applications of cultural perspectives by drawing on reviews of the literature and their experience in different kinds of colleges and universities It may be used as a reference when developing and evaluating student affairs programs and services and to assist new and continuing staff members in identifying understanding and appreciating the influence of institutional culture on the behavior of students

faculty and staff Co published with American College Personnel Association **The American Academic Profession** Joseph C. Hermanowicz, 2011-06-30 The academic profession like many others is rapidly being transformed This book explores the current challenges to the profession and their broad implications for American higher education Examining what professors do and how academia is changing contributors to this volume assess current and potential threats to the profession Leading scholars in sociology and higher education explore such topics as structural and cognitive change socialization and deviance career development and professional autonomy and regulation A comprehensive analysis of the significant questions facing this crucial profession The American Academic Profession will be welcomed by students and scholars as well as by

administrators and policy makers concerned with the future of the academy **Anthropological Enquiries Into Policy, Debt, Business And Capitalism** Donald C. Wood, 2020-06-09 This volume explores current issues in national and international policy business and capitalism and economic theory and behavior specifically pertaining to Brazil The underlying theme running through the collection is the steady encroachment of neoliberalism into economic policy and practice and the impact this has had on everyday ways of life **Youth and Sexuality in the Twentieth-Century United States** John C.

Spurlock, 2015-07-16 When did the sexual revolution happen Most Americans would probably say the 1960s In reality young couples were changing the rules of public and private life for decades before By the early years of the twentieth century teenagers were increasingly free of adult supervision and taking control of their sexuality in many ways Dating going steady necking petting and cohabiting all provoked adult hand wringing and advice most of it ignored By the time the media began announcing the arrival of a sexual revolution it had been going on for half a century Youth and Sexuality in the Twentieth Century United States tells this story with fascinating revelations from both personal writings and scientific sex research John C Spurlock follows the major changes in the sex lives of American youth across the entire century considering how dramatic revolutions in the culture of sex affected not only heterosexual relationships but also gay and lesbian youth and

same sex friendships The dark side of sex is also covered with discussion of the painful realities of sexual violence and coercion in the lives of many young people Full of details from first person accounts this lively and accessible history is essential for anyone interested in American youth and sexuality *The Last Professors* Frank Donoghue,2018-04-03 What makes the modern university different from any other corporation asked Columbia s Andrew Delbanco recently in the New York Times There is more and more reason to think less and less he answered In this provocative book Frank Donoghue shows how this growing corporate culture of higher education threatens its most fundamental values by erasing one of its defining features the tenured professor Taking a clear eyed look at American higher education over the last twenty years Donoghue outlines a web of forces social political and institutional dismantling the professoriate Today fewer than 30 percent of college and university teachers are tenured or on tenure tracks and signs point to a future where professors will disappear Why What will universities look like without professors Who will teach Why should it matter The fate of the professor Donoghue shows has always been tied to that of the liberal arts with the humanities at its core The rise to prominence of the American university has been defined by the strength of the humanities and by the central role of the autonomous tenured professor who can be both scholar and teacher Yet in today s market driven rank and ratings obsessed world of higher education corporate logic prevails faculties are to be managed for optimal efficiency productivity and competitive advantage casual armies of adjuncts and graduate students now fill the demand for teachers Bypassing the distractions of the culture wars and other crises Donoghue sheds light on the structural changes in higher education the rise of community colleges and for profit universities the frenzied pursuit of prestige everywhere the brutally competitive realities facing new Ph D s that threaten the survival of professors as we ve known them There are no quick fixes in *The Last Professors* rather Donoghue offers his fellow teachers and scholars an essential field guide to making their way in a world that no longer has room for their dreams First published in 2008 *The Last Professors* have largely had its arguments borne out in the interim as the percentage of courses taught by tenured professors continues to dwindle This new edition includes a substantial Preface that elaborates on recent developments and offers tough but productive analysis that will be crucial for today s academics to heed

Mapping the Social Landscape Susan J. Ferguson,2020-08-27 Mapping The Social Landscape is one of the most established and widely used readers for Introductory Sociology Susan J Ferguson selects edits and introduces 58 readings representing a plurality of voices and views within sociology The selections include classic statements from great thinkers like C Wright Mills Karl Marx and Max Weber as well of the works of contemporary scholars who address current social issues **Routledge Handbook of the Sociology of Higher Education** James E. Côté,Sarah Pickard,2022-03-21 Higher education has come under increasing public scrutiny in recent years assailed with demands for greater efficiency accountability cost reduction and above all job training Drawing upon examples from across the world with an emphasis on Anglo American higher education systems this handbook employs sociological approaches to address these pressing concerns

The second edition is thoroughly updated and adds several new chapters to shed further light on the transformations wrought by the interrelated processes of massification vocationalization and marketization that have swept through universities in the wake of neoliberal reforms introduced by governments since the 1980s The handbook explores recent developments in higher education systems and policy as well as the everyday experiences of students and staff and ongoing problems of inequality and diversity within universities In doing so the chapters address a number of current issues concerning the legitimacy of higher educational credentials from the continuing debate regarding traditional pedagogies and the role of universities in social class reproduction to more recent concerns about standards in mass systems Collectively this handbook demonstrates that the sociology of higher education has the potential to play a leadership role in improving the myriad higher education systems around the world that are now part of an interrelated set of subsystems replete with both persistent problems and promising prospects This book is therefore necessary reading for a variety of stakeholders within academia as well as professionals and policy makers interested in understanding higher education and the acute challenges it faces

Becoming Right Amy Binder, Kate Wood, 2012-12-16 How divergent campus cultures affect conservative college students Conservative pundits allege that the pervasive liberalism of America's colleges and universities has detrimental effects on undergraduates most particularly right leaning ones Yet not enough attention has actually been paid to young conservatives to test these claims until now In *Becoming Right* Amy Binder and Kate Wood carefully explore who conservative students are and how their beliefs and political activism relate to their university experiences Rich in interviews and insight *Becoming Right* illustrates that the diverse conservative movement evolving among today's college students holds important implications for the direction of American politics

Experimental Americans George L. Hicks, 2001 Founded in 1937 by Arthur Morgan first chairman of the Tennessee Valley Authority Celso pronounced see lo established its own rules of land tenure and taxation conducted its internal business by consensus and did not require its members to accept any particular ideology or religious creed Drawing on extensive fieldwork in Celso and among its local neighbors consultation of Celso's documentary records and interviews with ex members Hicks traces the Community's ups and downs Attacked for its opposition to World War II Celso was revived by pacifists released from prisons and Civilian Public Service camps after the war debilitated in the 1950s by bitter feuds with ex members it was buoyed up in the 1960s by the radical enthusiasm of new currents in the nation
