Counting Islam Religion Class And Elections In Egypt Problems Of International Politics:

Counting Islam Tarek Masoud, 2014-04-28 Why does Islam seem to dominate Egyptian politics especially when the country's endemic poverty and deep economic inequality would seem to render it promising terrain for a politics of radical redistribution rather than one of religious conservatism This book argues that the answer lies not in the political unsophistication of voters the subordination of economic interests to spiritual ones or the ineptitude of secular and leftist politicians but in organizational and social factors that shape the opportunities of parties in authoritarian and democratizing systems to reach potential voters Tracing the performance of Islamists and their rivals in Egyptian elections over the course of almost forty years this book not only explains why Islamists win elections but illuminates the possibilities for the emergence in Egypt of the kind of political pluralism that is at the heart of what we expect from democracy

The Failure of the Muslim Brotherhood in the Arab World Nawaf Obaid,2020-01-07 This book is an indispensable resource for anyone looking to understand the Muslim Brotherhood Qatar s role in promoting the group and the ideological social and religious factors that have led to its ultimate failure The book begins by looking at the birth of the Muslim Brotherhood MB in 1928 in Egypt It then traces its ideology and expansion via the various affiliate organizations in the Arab world as well as its international presence up to the present day Throughout this historical analysis evidence is presented linking the MB again and again to political violence and a lack of a coherent policy The book weaves into this history the influence of Qatari support a clarification of the division between true Salafism and the MB s radical ideology an explanation of how Jamal Khashoggi was a living metaphor for this misunderstanding and the role the MB has played in various revolutionary movements throughout the Middle East The book concludes with a current geopolitical outlook on the MB itself and the Arab world in which it resides The book is extensively sourced with first hand primary source quotes from numerous exclusive personal interviews conducted by the author with both experts on the subject and officials in the region

The New Spirit of Islamism Ezgi Basaran,2024-05-02 This book explains the aspirations and concerns of Islamist actors in the aftermath of the Arab Uprisings by looking at two sets of relationships between Turkey s ruling AKP and the Egyptian Muslim Brotherhood and the AKP and Tunisia s Ennahda It presents a unique analysis of the interplay between the AKP Ennahda and the Muslim Brotherhood characterizing the actors the structure and the main features of the relationship and thereby illuminating a political confluence among these three critical Islamist entities in the aftermath of the Arab Uprisings Existing scholarship has assumed that this relationship revolves primarily around an ideological Islamist agenda however this research demonstrates a more complex and nuanced situation Ezgi Basaran puts forward that the interplay was not based on an aspiration of building an ideological Islamist bloc in the MENA region but

rather revolved around the concept of political success and had a strong neoliberal ethos Basaran draws on data collected from over 60 interviews with high level members of the AKP Ennahda and Muslim Brotherhood to demonstrate how in the hope of achieving success and legitimization Ennahda and the Muslim Brotherhood have relied on the managerial prescriptions provided by the AKP The contents of this success formula were derived from the AKP s experience as an Islamist party in power since 2002 and includes tactics on crisis evasion legitimization winning elections and maintaining power

Rioting for Representation Risa J. Toha,2021-11-04 Ethnic riots are a costly and all too common occurrence during political transitions in multi ethnic settings Why do ethnic riots occur in certain parts of a country and not others How does violence eventually decline Drawing on rich case studies and quantitative evidence from Indonesia between 1990 and 2012 this book argues that patterns of ethnic rioting are not inevitably driven by inter group animosity weakness of state capacity or local demographic composition Rather local ethnic elites strategically use violence to leverage their demands for political inclusion during political transition and that violence eventually declines as these demands are accommodated Toha breaks new ground in showing that particular political reforms increased political competition direct local elections and local administrative units partitioning in ethnically diverse contexts can ameliorate political exclusion and reduce overall levels of violence between groups

Civil War in Syria Adam Baczko,Gilles Dorronsoro,Arthur Quesnay,2018-02-08 In 2011 hundreds of thousands of Syrians marched peacefully to demand democratic reforms Within months repression forced them to take arms and set up their own institutions Two years later the inclusive nature of the opposition had collapsed and the PKK and radical jihadist groups rose to prominence In just a few years Syria turned into a full scale civil war involving major regional and world powers How has the war affected Syrian society How does the fragmentation of Syria transform social and sectarian hierarchies How does the war economy work in a country divided between the regime the insurgency the PKK and the Islamic State Written by authors who have previously worked on the Iraqi Afghan Kurd Libyan and Congolese armed conflicts it includes extensive interviews and direct observations A unique book which combines rare field experience of the Syrian conflict with new theoretical insights on the dynamics of civil wars
