City Limits Stephanie Schwerter, 2022-01-13 Belfast Beirut and Berlin are notorious for their internal boundaries and borders As symbols for political disunion the three cities have inspired scriptwriters and directors from diverse cultural backgrounds Despite their different histories they share a wide range of features central to divided cities In each city particular territories take on specific symbolic and psychological meanings Following a comparative approach this book concentrates on the cinematographic representations of Belfast Beirut and Berlin Filmmakers are in constant search of new ways in order to engage with urban division Making use of a variety of genres reaching from thriller to comedy they explore the three cities internal and external borders as well as the psychological boundaries existing between citizens belonging to different communities Among the characters featuring in films set in Belfast Berlin and Beirut we may count dangerous gunmen prisoners wives soldiers and snipers but also comic Stasi members punk aficionados and fake nuns The various characters contribute to the creation of a multifaceted image of city

limits in troubled times *The Thriller and Northern Ireland since 1969* Aaron Kelly, 2017-03-02 For the past 30 years the so called Troubles thriller has been the dominant fictional mode for representing Northern Ireland leading to the charge that the crudity of this popular genre appropriately reflects the social degradation of the North Aaron Kelly challenges both these judgments showing that the historical questions raised by setting a thriller in Northern Ireland disrupt the conventions of the crime novel and allow for a new understanding of both the genre and the country Two essays on crime fiction by Walter Benjamin and Berthold Brecht appear here for the first time in English translation By demonstrating the relevance of these theorists as well as other key European thinkers such as Antonio Gramsci Louis Althusser and Slavoj Zizek to his interdisciplinary study of Irish culture and the crime novel Kelly refutes the idea that Northern Ireland is a stagnate anomaly that has been bypassed by European history and remained impervious to cultural transformation On the contrary Kelly's examination of authors such as Jack Higgins Tom Clancy Gerald Seymour Colin Bateman and Eoin McNamee shows that profound historical change and complexity have characterized both Northern Ireland and the thriller form **Divided Cities** Jon Calame, Esther Charlesworth, 2011-11-29 In Jerusalem Israeli and Jordanian militias patrolled a fortified impassable Green Line from 1948 until 1967 In Nicosia two walls and a buffer zone have segregated Turkish and Greek Cypriots since 1963 In Belfast peaceline barricades have separated working class Catholics and Protestants since 1969 In Beirut civil war from 1974 until 1990 turned a cosmopolitan city into a lethal patchwork of ethnic enclaves In Mostar the Croatian and Bosniak communities have occupied two autonomous sectors since 1993 These cities were not destined for partition by their social or political histories They were partitioned by politicians citizens and engineers according to limited information short range plans and often dubious motives How did it happen How can it be avoided *Divided Cities* explores the logic of violent urban partition along ethnic lines when it occurs who supports it what it costs and why seemingly healthy cities succumb to it Planning and conservation experts Jon Calame and Esther Charlesworth offer a warning beacon to a growing class of cities torn apart by ethnic rivals Field based investigations in Beirut Belfast Jerusalem Mostar and Nicosia are coupled with scholarly research to illuminate the history of urban dividing lines the social impacts of physical partition and the assorted professional responses to self imposed apartheid Through interviews with people on both sides of a divide residents politicians taxi drivers built environment professionals cultural critics and journalists they compare the evolution of each urban partition along with its social impacts The patterns that emerge support an assertion that division is a gradual predictable and avoidable occurrence that ultimately impedes intercommunal cooperation With the voices of divided city residents updated partition maps and previously unpublished photographs *Divided Cities* illuminates the enormous costs of physical segregation **Northern Ireland's Troubles** Marie-Therese Fay, Mike Morrissey, Marie Smyth, 1999 An up to date analysis of the problems faced by Iran's Kurdish population Planning in Divided Cities Frank Gaffikin, Mike Morrissey, 2011-01-21 Does planning in contested cities inadvertently make the divisions worse The 60s and 70s saw a strong

role of planning social engineering etc but there has since been a move towards a more decentralised community planning approach The book examines urban planning and policy in the context of deeply contested space where place identity and cultural affinities are reshaping cities Throughout the world contentions around identity and territory abound and in Britain this problem has found recent expression in debates about multiculturalism and social cohesion These issues are most visible in the urban arena where socially polarised communities co habit cities also marked by divided ethnic loyalties The relationship between the two is complicated by the typical pattern that social disadvantage is disproportionately concentrated among ethnic groups who also experience a social and cultural estrangement based on religious or racial identity Navigating between social exclusion and community cohesion is essential for the urban challenges of efficient resource use environmental enhancement and the development of a flourishing economy The book addresses planning in divided cities in a UK and international context examining cities such as Chicago hyper segregated around race and Jerusalem acting as a crucible for a wider conflict The first section deals with concepts and theories examining the research literature and situating the issue within the urban challenges of competitiveness and inclusion Section 2 covers collaborative planning and identifies models of planning policy and urban governance that can operate in contested space Section 3 presents case studies from Belfast Chicago and Jerusalem examining both the historical contemporary features of these cities and their potential trajectories The final section offers conclusions and ways forward drawing the lessons for creating shared space in a pluralist cities and addressing cohesion and multiculturalism Addresses important contemporary issue of social cohesion vs urban competitiveness focus on impact of government policies will appeal to practitioners in urban management local government and regeneration Examines role of planning in cities worldwide divided by religion race socio economic etc Explores debate about contested space in urban policy and planning Identifies models for understanding contested spaces in cities as a way of improving effectiveness of government policy

Paragesellschaften Teresa Hiergeist, Agnes Bidmon, Simone Broders, Katharina Gerund, 2021-10-25 In politischen und medialen Debatten werden unter

dem häufig stigmatisierend gebrauchten Schlagwort Parallelgesellschaft Fragen sozialer Homogenität und Heterogenität kontrovers diskutiert. Diesem reduktionistischen Gestus setzt der Band das offene Konzept der Paragesellschaft entgegen und ermöglicht dadurch eine differenzierte Annäherung an mediale Reflexionen des soziopolitischen und gesellschaftlichen Umgangs mit Diversität in verschiedenen Dispositiven der Gegenwart.
