central research question of this book concerns the challenge presented to executive federalism in the EU Customs Union by the WTO. It also examines those safeguard measures for uniform customs administration which are in operation. Valuable empirical analysis of the decision making procedures and practices of the national customs authorities allows for the fullest understanding of the operation of the customs administration. An important feature of the exploration is its analysis of the reform of EU customs law and of the effectiveness of the European Union's strategies to enhance uniform customs administration. That analysis helps to identify potential weak points in the decentralised administration of EU customs law and suggests ways in which it might be improved.
