The IGRP AS number is _____.

This exam consists of six elements that can be weighted to achieve an overall grade or combined as a pass/fail exam.

This exam will occur in stages. Each element is a set of instructions that needs to be accomplished. The instructor will initial each task as it is completed. Proceed to the next task only after the instructor has approved the current task.

The six elements of this exam are:

1. Basic planning
2. Security planning
3. Cabling
4. Basic configuration
5. Security configuration
6. Troubleshooting

The scenario is that Gadsden (GAD) is regional headquarters of the company. Anniston and Boaz are branch offices. Each network associate (student) will be responsible for a single branch office. The internetwork team leader (instructor) is responsible for the regional router (GAD).

A network address and specific number of hosts per subnet has been assigned for the local LAN. From the instructor provided information, the subnet address, the subnet mask, the first and last usable addresses, and the broadcast address for each site's LAN need to be determined.
