Rituals of Childhood Ivan G. Marcus, 2015-05-01 In medieval times when a Jewish boy of five began religious schooling he was carried from home to a teacher and placed on the teacher s lap He was then asked to recite the Hebrew alphabet and lick honey from the slate on which it was written to eat magically inscribed cooked peeled eggs and cakes to recite an incantation against a demon of forgetfulness and then to go down to the riverbank with the teacher where he was told that his future study of the Torah like the rushing river would never end This book Ivan Marcus s erudite and novel interpretation of this rite of passage presents a new anthropological historical approach to Jewish culture and acculturation in medieval Christian Europe Marcus traces ancient Jewish and Greco Roman elements in the rite and then analyzes it from different perspectives making use of narrative legal poetic ethnographic and pictorial sources as well as firsthand accounts He then describes contemporary medieval Christian images and initiation rites including the eucharist and the Madonna and child as contexts within which to understand the ceremony He is the first to investigate how medieval Jews were aware of drew upon and polemically transformed Christian religious symbols into Jewish counterimages in order to affirm the truth of Judaism and to make sense of living as Jews in an intensely Christian culture
